GOOD RESULTS FROM A FORGERY.

The Chinese question, during the latter days of the campaign, became one of National importance. The publication of the Morey forgery drew to that social problem the attention of the whole people. The forgery failed of its aim, but we of the Pacific Coast may be glad that it was perpetrated. The whole country has been made to realize the danger of unrestricted Chinese immigration. The words of the Morey letter reveal the utter heartlessness of the only arguments that can be made in favor of the Mongolian movement to our shores. The letter expresses in the cold-blooded language of political economy the demands of selfish capital for cheap labor. It strips from the Chinaphobists their shallow mask of sentimentality. No wonder that General Garfield denounced the letter as "brutal."

Now that the attention of the Nation has been drawn to the Chinese question, and the deep feeling of the people of the Pacific Coast regarding it been brought out so prominently, its solution will be easy and rapid. In his letter of acceptance, General Garfield gave assurance of his desire to protect the American laborer from coolie competition. He also gave the promise of his aid to secure by diplomatic negotiation, and failing in that, by legislation, the desired result. His position in regard to this question has all along been just and statesmanlike. He has felt that the honor of the Nation, pledged in a treaty with a foreign power, a treaty of our own seeking, must be preserved. The people of the Pacific Coast, under their self-imposed burden, have naturally been eager to cast it off, and have been impatient of the slow methods of diplomacy. So was Sinbad, when the Old Man of the Sea would not be shaken off his neck. Diplomacy succeeded in Sinbad's case. Should it not with ours, it is likely that little opposition will be met with in Congress to the passage of such an act as will put a stop to the evil of Chinese competition. To attain that end President Garfield's aid will not be wanting.

NO MORE "SOLID SOUTH."

The disintegration of the "Solid South," as a political power, has commenced. We shall hear little more of it hereafter. The failure of the united Southern Democracy, in the campaign which has just ended, is final and complete. It is unfortunate for the best interests of this Nation that the "Solid South" has played such a leading part in the contest. The revival of sectional feeling in the Union must be deplored by every wise and patriotic citizen. But the South is to blame for it. The boast of its leading men that the Southern States would give their solid electoral votes to the Democratic candidate for the Presidency was a challenge to the North. It aroused the North, and as a result the South has been beaten and humiliated. The lesson has been bitter but salutary. The outcome will be beneficial. The President-elect is a statesman, wise and good. He has a noble, generous heart. The Nation is first in his thoughts. In his broad mind there are no sectional barriers. The grasp of his intellect is far-reaching. It will be his aim to restore harmony between the North and South. Under his Administration sectional prejudices will be broken down. His long experience in political life will help him to accomplish the political unification of the Republic.

DEFEATED, NOT DISHONORED.

Poor Hancock! We are sorry for him. He has been sorely set upon and worried during the last few months. He has occupied a position for which he was not fitted, like a round man in a square hole. The people have happily extricated him from an unpleasant situation, and soon he can take his ease again. No one, it is safe to say, better realizes than he that his nomination was a mistake. The fire of biting criticism to which his unfortunate campaign utterances were submitted was probably more galling to him than any fire he ever faced in the field. He must have been made to feel that the role of statesman was unsuited to him. Yet through it all he bore himself gallantly, like the brave soldier that he is. He made a bold sally into the region of the tariff. "Come back, Hancock, you're on dangerous ground," shouted after him his party leaders. But he would not come back. He held his ground manfully, to stand or fall upon the principle that "the tariff is a local question." He knew what he was talking about. The question had been discussed once in his native place in Pennsylvania. It mattered not to him that he stood alone. Perhaps the example of "brave Horatius," alone upon the bridge, was in his mind.

General Hancock emerges unsmirched from the contest. His personal honor has not been assailed. The charge of misconduct, while in command of a Southern military district after the war, was erroneously made against him. The charge has been disproven, and that it was ever preferred is matter for regret. His candidacy has revived the memory of his glorious services to the country during the war, and as one of the heroes of Gettysburg he will not be forgotten. From the unaccustomed turn of politics the General returns to his retirement on Governor's Island, defeated, but not dishonored. From the far western edge of the political field we respectfully salute him. *Vale Hancock.*

A CLOSE SHAVE.

If the Democrats had carried New York their electoral votes would have been as follows:

Solid South	138
New Jersey	9
Nevada	3
New York	35
Total	185

The number of electoral votes necessary to elect is 185. See what a narrow escape for the Republican party! And New York State was carried for the Republicans through the failure of the Democrats to get the usual majorities in New York City, and in Brooklyn.

The whole country has had a narrow escape from a perilous situation. There would have been worse danger than in 1876, had the figures again stood 184 to 185. A change of one per cent. in the vote of New York State would have given the State to Hancock.

We observe that the Sacramento *Bee*, in calling attention to the possibilities above stated, urges the press of California to agitate for a Constitutional amendment doing away with the Electoral College, and allowing the people to vote directly for President and Vice-President. The Electoral College is a cumbersome and useless piece of political machinery. It was originally intended to be a deliberative body, deciding the choice of a President. But as in point of fact the people themselves choose their President they have no use for an Electoral College. One evil of the institution is that it tends to perpetuate sectionalism. The President is now elected by States. Let us fling the Electoral College into the political hell-box and have the President chosen directly by the people of the whole Nation. It is every way fairer, safer and better.

THE STATE PRINTERSHIP.

The *Enterprise* Thursday violently attacked State Treasurer Crockett and Secretary of State Babcock for appointing John W. Maddrell of the *Reno Journal* to the office of State Printer, alleging that the appointment has been given to an incompetent man. The *Enterprise* gives rather a funny reason for this action of Babcock's. It was done, the *Enterprise* says, "because, as he stated to the writer, he was afraid of the Senator whose friend is the appointee." This Senator is, of course, none other than the truculent Mr. Powning.

Our esteemed Comstock contemporary goes on to state that "Crockett, Treasurer, is also a friend of the Washoe Senator, who is the patron, employer and probable partner of the new State Printer. The Senator, who likewise runs a newspaper, was the defender of the Treasurer, who was mixed up disreputably in the failure of the Reno Savings Bank." It also "hopes the next Legislature will investigate this last, worst and crookedest job of the State Treasurer, Controller and Secretary of State."

To this savage on-laught, Senator Powning, in the columns of the *Journal* this morning, made the following modest reply:

"The *Enterprise*, in even insinuating that the proprietor of the *Journal* has any interest, direct or indirect, in the salary of the State Printer, commits an offense unworthy of itself."

There is no doubt that Senator Powning used his influence to secure the appointment for Mr. Maddrell. That was very natural. Mr. Maddrell had been four or five years a faithful foreman in the Senator's employ, and that the Senator should help Mr. Maddrell to a good thing is not surprising. The charge that the Senator frightened Babcock into acquiescence to his demands is more serious. The Senator is not justified in abusing his power. We look for a more complete vindication of himself from Mr. Powning, while we discredit the insinuation of the *Enterprise* that he and Mr. Maddrell have got the State printing on shares. The *Enterprise* has blown up a tempest in a tea pot. Some one connected with its establishment wanted the job.

Friday's *Enterprise* apologises to Mr. Babcock, admitting that he was opposed to the appointment of Maddrell.

GET VACCINATED.

Smallpox is spreading in San Francisco to an alarming extent. There were sixteen cases there on Tuesday, and up to yesterday afternoon thirty-seven more had been reported. Every effort is being made to check the disease, but it is likely to increase, and may extend along all the great highways of travel communicating with the city. It is wise to take all possible precautions at such a time. Vaccination is a safeguard against death from smallpox. Our people should not neglect to take this simple precaution. Let all the children be vaccinated. Though Reno should escape the scourge of smallpox this time, the vaccination will not have been in vain. It will keep good for seven years at least. Revaccination is desirable for those who were vaccinated over seven years ago. The school children should be vaccinated without delay, and also the pupils of the Seminary. If smallpox should get into one of our large schools it would be likely to make fearful havoc.

A DEMOCRATIC SENATE.

In the present Senate the Republicans have 33 of the 76 votes. They lose Senator Bruce of Mississippi and Sharon of Nevada. They gain one each from Indiana, Ohio, Pennsylvania, New York and Connecticut. Should they gain one from Tennessee, they will have 37 votes, one short of a tie.

THRASHING IN THE SCHOOLS.

Corporal punishment is now comparatively rare in the schools of this country. Twenty years ago the state of things was very different. How the boys used to catch it then! Sometimes the master would thrash the whole school. It used to be common to whip a school boy for stupidity, for a defective memory, for slowness of apprehension and for a thousand trivial faults or failings. Of late years the opinion has prevailed that the rod should never be employed in the school room except for most flagrant acts of disobedience or insubordination.

The work of a Boston committee this year has brought this subject prominently before the public. That city appointed a committee last April to investigate and report upon corporal punishment in schools. The committee found that the pupils had been "catching it" pretty well, the number of "chastisements" averaging 1,239 per month for the past school year. At the opening of the present year the rod seemed to have fallen into decay, the number of punishments averaging only 766 per month for the first quarter.

The committee have recently submitted a majority and a minority report. The majority report favors the abolition of corporal punishment in all departments of the public schools except the grammar school, and recommends that there it should be confined to boys. In support of this recommendation the report cites the example of Prussia, France, Austria and Holland.

The minority report recommends the rod in primary and high schools as well as in the grammar schools, and does not favor the exemption of girls from punishment.

This question of corporal punishment is one in which interest decreases with age. Each of us can remember occasions when it had for him a vital importance, an interest so vast as to overshadow all other questions. As boys we all favored the total abolition of licking in the schools. We were such thorough-going reformers then that we did not stop there. We would have banished the rod from home as well as from school. How earnestly, as boys, we all believed in the government of love! But those early radical notions became largely modified with time. When the rod ceased to have any terrors for ourselves we began to think its occasional application an excellent thing for the juniors. Age makes people conservative.

There are serious aspects to this question of whipping in the public schools. Injudicious beating has ruined the temper and disposition of many a child. It has given the world many broken-spirited men and women. It has hardened thousands of hearts. But while the average boy remains what he is, occasions will arise when a moderate flagellation would be decidedly beneficial. The injudicious booker from school should certainly be castigated on his return. As to whipping girls, that is another question. Girls certainly deserve to be whipped sometimes, but the masculine nature rather revolts at the thought of beating them. Punish them some other way. Make them sit with the boys.

The Boston committee make a recommendation which should be put in force in every school room in the land. It is that the rod should be applied solely by the principal of the school, and that no beating should be administered until the next session following that in which the offence was committed. Thus, if a pupil does anything in the morning requiring punishment, he should not be punished until the afternoon. The operation of this rule would prevent hasty punishments, which are often injudicious.

THE NEVADA MONTHLY.

The *Nevada Monthly* for October has come to hand. It will be found an excellent number. The following is the table of contents: Mining Review, Mineral Patents, An Essay on Man, History of Nevada, Almost a Crime by J. Russell Fisher, Dividends for September, Mining Companies' Cash Balances, Mining Indebtedness, Locations, Relocations and Affidavits of Labor for September, Incorporations for September, Assessments, Bullion Shipment for September, Looking Back by J. Russell Fisher, A May-day Picnic by J. Mayford Kerr, Leadville Mining Output, Montana—Summit Valley District, Selections from Mining Exchanges, A—Assessment Table, Highest and Lowest Prices of Stock, Political—What the Republican Party Has Not Done, What the Republican Party Has Done, Nevada Republican Platform, National Republican Ticket, Storey County (Nev.) Politics, Storey County Republican Platform and Resolutions, Storey County Republican Ticket, A Legend of the Sierras by Dan De Quille.

CIVIL SERVICE REFORM.

Political parties have, like nations, their periods of prosperity and decay. As soon as a party outlives its usefulness it drops out of sight. Its place, is filled with a new one, representing new issues and a younger generation. The Republican party has well nigh accomplished the noble work which called it into being. New issues have gradually grown up since the war, which have not yet found recognition in any National party. We look for the birth of a new party within the next four years; a party which shall embrace the best men of the two great political divisions; a party of reform. To a large number of Republicans and Democrats the reform of the civil service is the most important thing next to be attained in the government of this country. The principle for which they seek recognition is appointment to and permanency in Government offices during good behavior, without regard to political affiliations. They desire the abolition of the spoils system, which has so long cursed this country and disgraced its politics. Pure men of widely different political views can all unite for the attainment of this object.

A GOOD IDEA.

Senator-elect Jerry Schooling suggests an excellent amendment to the present election law of Nevada. It is that no man shall be allowed to vote who shall not have been a citizen of the United States for six months. This amendment would prevent foreigners from becoming citizens on the eve of an election. If an alien could alone become a citizen at times when votes were not in demand, he would not be likely to take out naturalization papers except from a sense of duty and an honest desire to serve his country. We hope to see Mr. Schooling's suggestion carried out by legislation, along with other amendments to the election laws. Let Nevada, which has hitherto had an unenviable reputation for corrupt elections, take the lead in the work of electoral reform.

NEVADA.

This State has no doubt given a majority for Hancock, probably several hundred. The Democrats have elected Cassidy for Congress, Belknap for Supreme Judge, and will have a majority in the Legislature. Fair's money has brought about this result, and the Democratic Legislature will be too grateful not to reward him with the U. S. Senatorship. After electing Fair, the next legislative proceeding will be to turn all the State Prison officials out in the cold and fill their places with Democrats. The Legislature will probably also make some changes in the State University.

THE GENERAL ELECTION.

There is no doubt of the election of General Garfield. He surely has the electoral votes of every Northern State, with the exception of New Jersey, Nevada, California and Oregon. New Jersey and Nevada are conceded to Hancock. California and Oregon, at the present writing, remain in doubt. The vote in California is very close. It will be some days before the result will be known to a certainty in Oregon, as the returns are coming in slowly. A dispatch to-day says that North Carolina has gone Republican, but this is improbable. The latest estimate for the next Congress gives the R-republicans 153 and the Democrats 125 in the House, a large Republican gain. The Senate will probably be Democratic. Conflicting dispatches have been received from New York, but the latest gives Garfield a majority of nearly 25,000 in the State.

Railway Statistics.

There are now some eighty-five thousand miles of railroad in the United States, operated by some six hundred companies. There are over twenty thousand stations. On these lines are eighteen thousand locomotives, thirteen thousand passenger cars, five thousand baggage, mail and express cars, and some five hundred thousand freight cars. No reliable statistics show the number of men employed on this eighty-five thousand miles of road, but it is estimated that there are about forty thousand engineers and firemen, twenty thousand conductors and brakemen, about the same number of baggage, mail and express men, and at least fifty thousand men on freight trains. Add station agents and clerks, train dispatchers, telegraph operators, yardmen, road-masters, truckmen, watchmen, flagmen, freight laborers, machinists, carbuilders and repairers, employees in round-houses and shops, and last but not least, presidents, general managers, superintendents, and auditor's department, treasurer's department, general ticket agent and freight department, etc., and we have almost a million men employed in the railroad business of the United States. Add to this the men employed in the manufacture of railroad supplies, in car and locomotive works, in rolling mills, in cutting ties, etc., and perhaps we could bring the number of men who derive their living from railroads in our country alone to nearly two millions.

A Nice Kind of a Man.

George Wheeler, the San Francisco murderer of his sister-in-law, who said that she submitted willingly to being choked to death, maintains a wonderful composure. His wife visited him in prison, and he offered to kiss her, but she repelled him, exclaiming, "Oh, you villain!" He asked her what she had come for, if not to be friendly. "I want you to tell me the truth," she replied: "how did you kill her? Don't deceive me now. Tell me just how you did it." "Do you want to know?" he asked carelessly. "Yes; I want you to tell me before God just how you did it." "Oh, I'll tell you. Just hold my hat a moment, will you?" said he to a by-stander, as he stretched his left hand toward the fearful wife. She instinctively drew back. "Don't be scared," said he, "I won't hurt you. This is how I did it;" and he placed his left hand on her mouth and grasped her throat with his right. In a moment he released her, and she asked, "Didn't she struggle?" "Oh, yes; of course she kicked a little; but she had made up her mind to die."

The San Francisco *Stock Report* avers that the small-pox spread in that city from Chinese wash houses. It says that Chinamen sick with the disease have a mortal horror of the pest house, and driven from their usual abodes find refuge in the laundries kept by their countrymen. The *Stock Report*, in proof of this, instances the fact that a large majority of white small-pox patients in San Francisco are women, who are the principal patrons of the Chinese laundries.

The case of R. R. Parkinson has been submitted to the U. S. Supreme Court, owing to a difference of opinion between Judges Sawyer and Hillyer.

SMALL-POX.

The reports concerning the prevalence of small-pox in San Francisco have, it appears from yesterday's *Call*, been much exaggerated. There were eighty-six cases in all reported last week. On Friday only five new cases were reported, and on Saturday but two. Still there may be many cases concealed in private houses and hotels. It is well for all to be on their guard against the disease, and be able to recognize its symptoms, which are thus described:

"At first, what is termed the period of incubation, or time elapsing from the inception of the poison until it manifests itself, lasts about fourteen days. During this period little inconvenience is experienced. The second stage of the disease is announced by chills alternating with fever. Pains begin to be felt in the back, more especially in the region of the loins, accompanied by nausea and vomiting. Should the fever assume a violent form and delirium set in, a more severe form of the disease may be anticipated. Convulsions are apt to affect children. On the third day of the fever the eruptions begin to appear. The body is affected first, the face next and finally the extremities. By the fifth day the eruption is complete, and generally no new spots appear. Minute round pimples first manifest themselves. To the touch they feel hard, not unlike small shot beneath the surface. With the appearance upon the surface, sore throat is complained of. The tonsils become swollen, and pustules appear upon them, in the roof of the mouth and in the inside of the cheeks. Salivation frequently attacks the patient."

In a disease of so much gravity, no reliance should be placed on published recipes, where medical treatment can be obtained. But where the services of a doctor cannot be had, it is desirable to combat the disease, and the following prescriptions given by the *Call* might be tried with advantage:

The following recipe is offered as a preventive and curative of small-pox and scarlet fever. The remedy appears to be a well-known one. It is clipped from an old paper the following "Small-Pox Remedy." The recipe has been used to my knowledge in hundreds of cases. It will prevent or cure the small-pox though the pittings are filled. When Jenner discovered cow-pox in England the world of science hurled an avalanche of fame upon his head, but when the most scientific school of medicine in the world—that of Paris—publishes this recipe as a panacea for small-pox, it is passed unheeded. It is unfailing as fate, and conquers in every instance. It is harmless when taken by a well person. It will also cure scarlet fever. I have used it to cure small-pox, when learned physicians said the patient must die; Sulphate of zinc one grain; foxglove (digitalis) one grain; sugar, half teaspoonful. Mix thoroughly. When mixed add four ounces of water. Take a teaspoonful every hour. Either disease will disappear in twelve hours. For a child, smaller doses, according to age."

Another recipe is as follows: Edward Hine, a correspondent of the *Liverpool Mercury*, in a communication to that paper, writes as follows: "I am willing to risk my reputation as a public man if the worst case of small-pox cannot be effectually cured in three days simply by cream of tartar. This is the sure and never-failing remedy. One ounce of cream of tartar dissolved in a pint of boiling water, to be drunk when cold, at short intervals; it can be taken at any time and is a preventive as well as a curative. It never leaves a mark, never causes blindness, and always prevents tedious lingering."

Three hundred persons a day were vaccinated in San Francisco last week. All houses in which small-pox makes its appearance are promptly fumigated. Several firms employing many workmen have required all their employees to be vaccinated, on pain of dismissal. Children who have not been vaccinated are not allowed to attend the public schools. A case of small-pox is reported from Point of Timber, Contra Costa county. The disease is likely to spread over the coast, and those who are wise will not neglect to be vaccinated.

CALIFORNIA.

The "arithmetical men" of the press disagree over the result of the California election. The *Sacramento Bee* (Greenback) of Saturday evening figured up a majority of 131 for Garfield. The *Bulletin* (Republican) of the same date, from returns of 155,000 votes cast all over the State, conceded Hancock a plurality of 133. The count had then been complete in twenty-six counties, and in the remaining counties there were very few precincts to hear from. The *Call* yesterday morning ventured the opinion that Hancock was "still in the lead," and that the returns to come in would "probably be favorable" to the Democratic Electors. In the *Call* office at a late hour on Saturday night a plurality of 73 was figured up for Hancock.

NECESSITY FOR AN AMENDMENT.

Emminent statesmen have shown the danger from claims growing out of the war, in case bad or ignorant men get control of the government. Mr. Bayard, Mr. Randall, Gen. Hancock and others think the Fourteenth Amendment prevents the payment of such claims. Mr. Conkling, Judge Edwards, Senator Blaine and others think not. Senator Conkling said just before election:

"In the Fourteenth Amendment stand these words: 'Neither the United States, nor any State, shall assume or pay any debt or obligation incurred in aid of insurrection or rebellion against the United States, or any claim for the loss of or emancipation of any slave, but all such debts, obligations and claims shall be held illegal and void.' The claims which stand in staggering totals in bills already before Congress, and in other bills said to be waiting, are not touched by this section of the Constitution."

"Buildings were occupied, crops were trampled, fences and wood were burned, provisions were consumed, edifices were demolished, and regions were laid waste by the armies of the Union. The total of such claims dizzies arithmetic. * * * They are claims because of acts done to crush rebellion. The Constitutional amendment does not come within gunshot of them."

Now, presuming that these gentlemen were sincere in this matter, and they probably were, it is their belief that the Fourteenth Amendment is a protection to the tax payers of America against this two or three billions of dollars. We call upon them to give us an amendment that will protect us. There certainly is wisdom in the patriotic North to frame a law that will be binding, and as the Southern people and the Democrats say there is no disposition to try to collect such bills, there will probably be no opposition. Let us have an amendment to the amendment."

CAN ANY GOOD COME OUT OF NAZARETH?

The future of the two great parties is just now a popular subject for discussion. A great many papers and politicians are predicting and recommending that the Democratic party dissolve and reorganize under some other name. It is safe to say that no party will ever do that voluntarily. The old leaders will not give way. The old glory of the Democratic name still exerts its influence. All the mistakes and failures of twenty years have failed to convince the rank and file that only the name remains. That principle, patriotism and wisdom no longer guide its counsels. So long as the rank and file will follow, so long will the party leaders keep up any organization and cling to any name that promises them office. The Democratic party has been badly shaken five several times, and its disorganization seemed inevitable, but its leaders gathered up the fragments, and drawing to its standard the sore-heads, the renegades, the foolish whom they could deceive and the ambitious whom they could lure by the hope of position, they raised one issue after another and made great struggles for the control of the government, and strange to say they have nearly evenly divided the American people with the Republican party. We hardly expect to live to see the Democratic party extinct. We do not even hope to see a good party made from it. Whenever it has sent out a shoot it has been in the shape of Communism, Greenbackism or Kearneyism. It will gather to it the vile and the ignorant, and raise false issues, deceiving battle cries and poor arguments, and it will fight as hard as ever before to deceive the people and get their votes.

THE DOUBTFUL STATE.

The result of the Presidential election in California still remains in doubt. The official count will decide it. Last evening from complete returns of all counties except a few small precincts in San Bernardino, Inyo, Siskiyou and other sections in the north, the *Bulletin* figured a majority of 21 for Hancock. It is, however, claimed that the official count will give Garfield 46 more votes in Alameda county. The missing precincts of Inyo and San Bernardino are said to be Republican.

The *Bee* of last evening, from the returns so far received, figured Hancock's majority as 84, with a probability of an increase. It states that bets will not be paid until after the official count.

EDITORIAL NOTES.

The excitement in Boston over the failure of Mrs. Howe's Women's Savings Bank has about died out. The peculiarities of the institution were that it received deposits from women only and that it paid eight per cent. interest per month. Of course it was a swindling concern, as every business man knew, but the women kept putting in their money, lured by the high rate of interest. The bank did business five years, recently failing for \$500,000. Mrs. Howe, the presiding genius of the concern, was arrested for embezzlement, but her lawyers expect to clear her on the ground that she has been insane for five years. They saddle the blame on her wicked clerk, Mrs. Gould. Mrs. Howe certainly has not been half so insane as the women who trusted their money in her swindling bank.

The propensity for lightness and freedom in the handling of fire-arms seems to be hereditary. The fifteen-year-old son of ex-Governor Sprague of Rhode Island has just furnished an example of this. The boy last Saturday fired a pistol at the head of Mr. Thomson, his mother's trustee. The ball went close to the trustee's head. No explanation is telegraphed. Perhaps the trustee had mixed up Mrs. Sprague's accounts as badly as Mr. Conkling was reported to have done when the ex-Governor lay in wait for the Senator with a shot gun.

It appears that there is a big comet coming head on towards the earth. Look out for it. Lewis Swift, the Rochester astronomer, says: "The new comet which I found on the 11th instant promises to be one of the most remarkable ones which have recently been seen in this country. Its great size, its slow rate of motion, and the fact that its movements are nearly in a direct line toward the earth, all combine to produce this result."

How are bets on the California election to be decided? It seems certain that the name of Judge Terry, one of the Presidential Electors on the Democratic ticket, was so much scratched that he is not elected. California has six Electoral votes. If the Democratic ticket has received a majority of the votes cast, there will be five Democratic Electors and one Republican. In that case can it be decided that the State has gone for Hancock?

Nevada Republicans take their defeat philosophically. They expected after the way Senator Sharon managed his fight to lose the Legislature, but hoped to carry the State for Garfield. The men who did vote and work for the straight Republican ticket in Washoe county deserve credit, for money flew around pretty loosely, and nearly everyone was approached.

Chicago was white with snow on Saturday morning. In Springfield, Ill., the snow was four inches deep, and a violent storm had been raging at New York. Here in Nevada the days continue warm and bright. No snow is yet to be seen on the summits of the Sierra. Our cold weather will not come until those mountain tops get white.

Compared to the \$60 assessment on the Edison Light stock, assessments on Comstock shares are but flea bites. The Edison stock is ticklish to handle. It has recently jumped to \$1,200 because of the expected success of Mr. Edison's public experiments next month. Last Spring, when there was so much excitement over the electric light, the stock sold as high as \$4,000 a share.

A subscriber writes to the *GAZETTE* concerning a political meeting which he alleges was held by the ladies of Wadsworth during the campaign. He reports an animated discussion which took place over the kind of a bird that was sure to be in the Presidential chair in case of the election of Garfield, but the matter is now too old to be of much interest, and the *GAZETTE* can find no room for the communication.

That editorial entitled "No Mincing Matters," whose appearance in the *New York Sun* struck terror into the hearts of the Democrats, is said to have been written by Charles A. Dana at the country house of S. J. Tilden after dinner, and to have been forwarded by a special messenger to the office of the *Sun* for publication in next morning's paper.

The *Bulletin* sums up the result of the election in California thus: "Hancock will have five electoral votes in California and Garfield one. The Republicans have elected two out of the four Congressmen. They will have a majority of the Joint Convention which secures to them the Senatorship. They will also have votes enough to organize the House."

A great deal of theorizing is being done over the problem of why the Democrats were beaten, the reasons assigned ranging from a special providence down to Hancock's remarks on the tariff. The simplest of all the reasons given for the defeat of the Democrats is that the Republicans were too many for them.

The *Bulletin* estimates that the Republicans will have a majority of 12 on joint ballot in the next California Legislature. This insures the election of a Republican U. S. Senator. In the Assembly the Republicans will have a majority as well as in the Senate, if Patterson, of Nevada county, is elected.

The people who have occasion to travel on the coaches and teams along the Roads near Nevada City and Grass Valley must be in constant dread of robbery. Scarcely a day passes without somebody being relieved of coin by road agents. Some one should make an example of a robber by killing him, but no one seems to like to do it.

Secretary Sherman, in an open letter, expresses his approval of the *New York Bulletin's* project for an International Monetary Conference to establish a ratio between gold and silver, with a view to creating an international currency of certificates of deposit of bullion, to be good between all nations agreeing thereto.

The *San Francisco Daily Stock Report* says: "It is a fact too generally known to be longer kept out of the newspapers, that a movement is on foot to organize in this city an 'American Party,' which the promoters hope will become a national political party before the next Presidential campaign."

The other Democratic papers of the State unite in complimenting the *Virginia Chronicle* for the excellent fight it made during the campaign. The *Chronicle* was certainly the liveliest Democratic campaign paper on the coast.

There is more terror in the name of small-pox than in the disease itself. Only three deaths have occurred in San Francisco from small-pox during the present scare. Pie, hot biscuit and whiskey each number more victims every day.

The Democratic party in Oregon is completely demolished. Many old Democrats say they will never cast another Democratic vote. This last campaign meant woodchuck or starvation to the Democratic party, and it didn't get the woodchuck.

We call attention to the letter of our Verdi correspondent, in which he protests against the present law that prohibits the catching of trout in Nevada after April 20. He points out that this law simply protects the trout in the Truckee river for the benefit of our California neighbors.

The *Oakland Tribune* savagely assails Frank Pixley for the injury that it alleges he did the Republican party in California by his letter to the *Argonaut* at the time of the Chicago Convention. It was certainly extremely improper in Pixley to publish what took place in caucus.

California is likely to send a Republican to the United States Senate. Should Tennessee and New Jersey do the same, the Senate will be tied, and as Vice-President Arthur has the casting vote, that body would be practically under Republican control.

The Grass Valley Union states that it will take the official count to decide whether Mr. Cross (Dem.) or Mr. Patterson (Rep.) is elected Assemblyman from that county, but says that Cross is believed to be ahead from five to ten votes.

The French people have developed a great fondness for horse flesh during the past few years. It has become a favorite article of diet in Paris, and sells readily for thirty cents a pound.

The fact that the only votes cast in Nevada for Chinese immigration were polled by Democrats, shows that the Democracy is at least not more opposed to the Mongolian invasion than the Republican party.

The walk for the Astley belt was finished on Saturday night in London, Rowell winning in the best time on record. The following is the final score: Rowell 566 miles; Littlewood, 470; Dobler 450.

Mr. Gladstone, the English premier, is 74 years old, yet he does the work of four ordinary men. His son Herbert has inherited much of his father's ability, for he sits in Parliament and is a polished orator.

George Francis Dawson, once of the *Enterprise* editorial staff, is announced as a candidate for Sergeant-at-Arms of the next House of Representatives.

Tennessee has elected to Congress a negro barber named Johnson. His opponent was a white Democrat. Johnson entered the field only a week before the election. He got a majority of 1,000.

I. Glazier & Co., leading stock-brokers of San Francisco, are reported to be going out of business. Stock gambling seems to be falling away in San Francisco.

An official report of the census of South Carolina has come to hand. The State has a total population of 995,306, of whom 604,235 are colored and 391,071 white. Only 7,642 are of foreign birth.

Vaccination is compulsory in many parts of Germany and England. Some physicians bitterly oppose the practice, believing that it does more harm than good.

The story got about in San Francisco that two persons suffering from small-pox were found seated in a crowded horse-car. The *Call* says the report was probably a hoax.

The *Bee* of last evening estimated a majority of 287 for Hancock in California. The official returns in some counties will not be canvassed until next Monday.

This talk from the *New York World* about counting out Republican votes in New York State, on account of alleged election frauds, is all bluster. There is nothing in it.

Wal J. Tuska, of Virginia, and W. Merrill, of Eureka, are spoken of for the Speakership of the next Assembly. Wm. O'Brien, of Virginia, is a candidate for the office of Sergeant-at-Arms.

Women's rights receive recognition in Bodie, for Mrs. Ada Sullivan is elected Superintendent of public instruction for Mono County.

The trot between Santa Claus and Elaine, to come off in San Francisco next Saturday, is the topic of interest for horsemen.

Giving California to Hancock, the Electoral College will be divided as follows: For Garfield 213, for Hancock 156.

Two more candidates for the Wardenship of the State Prison have appeared. They are ex-Mayor Currie of Virginia and M. R. Elster, of Carson.

The Madison (Wisconsin) *Democrat*, advocates the disbanding of the Democratic party in the West. Certainly there seems to be no use for a Democratic party any more.

"How is your scab?" is the elegant form of address now in vogue in San Francisco. This delicate inquiry relates to the vaccination of the person so accosted.

A Chinaman at Grass Valley was so happy over the election of Garfield that he asked two white men to go with him and take a drink.

Mayor Killoch and Registrar Kaplan of San Francisco have both been arrested in accordance with the recent action of the Grand Jury.

Judge J. E. Wyman, editor and proprietor of the *Humboldt (Cal.) Times*, is dead.

CALIFORNIA'S VOTE.

The *Bulletin* of Saturday evening gives the following as the vote of the several counties in California. They are all complete except Fresno, Inyo, Mariposa, Modoc, Placer, Siskiyou, San Bernardino and Sutter. The precincts to hear from are small, and have been estimated for as shown in dis-patches elsewhere. Hancock's gain has been largely in Colusa, Lake and Del Norte.

A Feat in Pronunciation.

The following rather curious piece of composition was recently placed upon the blackboard of a teacher's institute in Vermont, and the price of a Webster's dictionary offered to any person who could read it and pronounce every word correctly. The book was not carried off, however, as twelve was the lowest number of mistakes in pronunciation made: "A sacrilegious son of Belial, who suffered from bronchitis, having exhausted his finances in order to make good the deficit, resolved to ally himself to a comely, lenient and docile young lady of the Malay or Caucasian race. He accordingly purchased a callopie and coral necklace of the chameleone hue, and securing a suite of rooms at a principal hotel, he engaged the head waiter as his coadjutor. He then dispatched a letter in the most unexceptional calligraphy extant, inviting the young lady to a matinee. She revolted at the idea, refused to consider herself sacrificable to his desires, and sent a polite note of refusal, on receiving which he procured a carbine and a bowie knife, said that he would not now forge fetters hymeneal with the Queen, went to an isolated spot, severed his jugular vein and discharged the contents of his carbine in his abdomen. The debris was removed by the coroner." The mistakes in pronunciation were made on the following words: Sacrilegious, Belial, bronchitis, exhausted, finances, deficit, comely, lenient, docile, Malay, callopie, chameleone, suite, coadjutor, calligraphy, matinee, sacrificable, carbine, hymeneal, isolated, jugular and debris.

How Long A Horse Can Fast.

A Tanner experiment was made with a number of horses in Paris in 1876. The following results were obtained: 1. It was proved beyond a doubt that a horse can hold out for twenty-five days with any solid nourishment, provided it is supplied with sufficient and good drinking water. 2. A horse can barely hold out for five days without water. 3. If a horse is well fed for ten days, but insufficiently provided with water during the same period, it will not outlive the eleventh day. One horse, from which water had been entirely withheld for three days, drank on the fourth day sixty litres of water within three minutes. A horse which received no solid nourishment for twelve days was, nevertheless, in a condition on the twelfth day to draw a load of 279 kilos.

Samuel Manuel, aged seventeen, a brakeman on the Nevada narrow-gauge railroad, was terribly mangled while coupling cars near Grass Valley Monday. Both legs will have to be amputated. The same young man had just recovered from a fracture received some weeks ago on the same road.

The judges at the Boston baby show, possibly mindful of the fury of a woman whose infant has been scorned, declared they could not decide which exhibits were best, and left the prizes to be awarded by the votes of the visitors.

Owing to dull times, the Virginia *Stage* will be discontinued until business improves.

This morning's *Enterprise* asserts that there is but one case of small-pox in Virginia.

Pacheco's reelection to Congress from the Fourth California District is certain.

General Grant is likely to be Garfield's Secretary of War.

MISCELLANEOUS.

The railroad up Vesuvius has done such a flourishing business since its opening last spring that the value of the stock has increased fifty per cent.

Two hundred men went out to hunt bears at Wardsboro, Vt. the bears having committed depredations; but in an all-day tramp the hunters captured only one small cub.

At the Highland ball at the Prince of Wales' seat, Abergeldie, the Queen danced a reel with her son, Lord Fife, and the Princess Irene of Hesse, the first reel she had danced for years.

Coon hunters were cutting down a tree at Adams, Ind. The dogs got into a fight close to the tree just as it was ready to fall. Two men succeeded in saving the brutes, but were crushed to death themselves.

Teresa Tua of Turin, a young girl of thirteen, bore off the first prize as a violinist at the Paris Conservatory last year. She has been offered \$40,000 for a five years' tour through the United States.

The *Revue des Deux Mondes*, founded fifty years ago, and to-day the principal review in France, failed to pay during the first twenty years of its career. It now numbers 20,000 subscribers at \$10 a year.

A young wife remonstrating with her husband on his dissipated habits, was answered; "I am like the prodigal son, my dear; I will reform by and by." "I will be like him, too," she said; "I will arise and go to my father."

Mr. Stotesbury is an old man, and Mr. Belrose is a young one; but when Mr. Belrose undertook to publicly cowhide Mr. Stotesbury, in Philadelphia, Mr. Stotesbury threw Mr. Belrose down and pounded him until he cried "Enough!"

Last Saturday morning, while the 11:45 train was going from Santa Cruz to Watsonville, two large railroad ties were found on the track, placed there with the intention of throwing the train off.

An Indiana evangelist known as Father Blake has wealth and skill as a painter, and he devotes both to ornamenting rocks and fences with scriptural injunctions. He travels far and wide with his paint pot and brush.

Two robberies occurred two miles below Nigger Tent, on the Marysville road, at 6 p. m. last Friday night. The last was a Mexican packer, who left Downieville Friday morning. He was found a few minutes after murdered, shot through the head. It is not known how many were concerned in the robbery.

Some Galveston boys were impressed by reading of the martyrdom of saints by death at the stake, and they decided to burn a pet dog in the same manner. The leader of the movement had a theory that the poor brute's sufferings would result in immortal joys, and so he agreed to do it. A post was driven into the ground, the dog chained fast, and a roaring fire built. The boys sang hymns while their victim was roasting to death.

An English View of American Cheese.

From the London Times.

The Americans eat very little cheese themselves. They can not make a very good cheese, nor do they ever attempt to compete with the various kinds of cheese produced in particular localities, and very successfully imitated in this part of the world. All their cheese is of much the same quality, and it is not one likely to find favor at an English lunch or dinner table. The cheese factory can only reach a fair average of richness, and must leave flavor alone. Butter is a still more hopeless affair. As a rule, American butter is inferior. Everything has been done to render it fit for foreign use, or for long keeping, but very little, apparently, to make it more agreeable to the palate.

Convenience of the Telephone.

The scene is laid in the office of a city business house. One of the partners goes to the telephone and calls for DeSmith to talk to him in regard to some business. "What are you calling him for?" asked the other partner; "you know he comes here every morning at eleven o'clock." That's just why I want to talk to him over the telephone. You can't smell his breath over the telephone." The subsequent behavior of DeSmith leads to the suspicion that the atmospheric conditions just then were favorable to the transmission of sound, and that he heard every word of it.

Good Mines.

The Plumas Eureka and Sierra Buttes Mining Companies paid dividends of 75c and 25c per share respectively in London on Oct. 15. Both are California mines, but are owned in England. The dividend of the Plumas Eureka is \$30,500, and makes \$582,345 paid from the start. The dividend of the Sierra Buttes is \$31,250, and makes \$1,389,400 paid from the start. These totals are from the Mining Record.

A Novelty in Vaccination.

To-morrow afternoon and evening a novelty in vaccination will be performed at Young Men's Christian association Hall, in San Francisco. The *Bulletin* says it is proposed to vaccinate all applicants with lymph taken from a calf obtained from the Pacific Bovine Virus Farm of Dr. J. C. Tucker. It is represented that vaccination in this manner has been very successfully carried out in Europe.

ISIGN OF THE TOWN CLOCK,

THE COUNTY ELECTION.

The Democratic County Ticket Elected, Excepting Treasurer and Administrator—The Complete Vote and the Majorities—The Republicans Elect the Justice and a School Trustee in Reno Precinct.

David Martin came into town this Thursday with the ballots cast at Salt Marsh and Duck Flat, which he deposited at the Court House. The full and exact vote from these two precincts will not be known until the returns are opened by the Commissioners. Mr. Martin states that Salt Marsh went nine Democratic and five Republican. He furnishes the following incomplete return from

The Democrats elect their whole legislative and county ticket, with the exception of Treasurer and Public Administrator. In this precinct Republicans elect J. L. McFarlin School Trustee and W. H. Young Justice of the Peace. J. B. Williams, the Democratic candidate for Recorder, received the highest number of votes cast for any candidate, leading the list with 946. Of the Republicans, Dan Boyd, for Treasurer, leads with 872.

The County Commissioners will meet on Thursday, the 11th inst., and count the returns. The vote will then be declared officially.

Going Out of Business.

S. N. Davidson is about to retire from business in Reno, having secured a good opening elsewhere. He advertises his large and fine stock of clocks, watches, jewelry, silverware, spectacles, etc., at cost and less than cost. His store fixtures are also for sale at a sacrifice.

A MOTHERLY MULE.

An Orphaned Colt Adopted by a Government Mule.

Several months ago the GAZETTE called attention to a strange freak of affection evinced by a government mule on Pyramid Lake Reservation for a young colt, and that it was a question for grave consideration whether the colt was the real or only the adopted offspring of the female hybrid. So decided was the manifestation of mutual attachment between the two brutes that it seemed to be a case of genuine maternal and filial affection. The colt often sought, and from its thrifty condition, seemed to obtain, a plentiful supply of food from its devoted mother—not only to live, but actually to thrive and feel playfully "coltish"—while the mother afforded the tender suckling every facility to draw its sustenance from her bounteous store, and was moreover ready on all occasions to defend and protect the young equine from dog, donkey or lariat by those back-action weapons which nature has so lavishly stored away in the heels of every one of her race.

A few days ago "Maggie," the pride and pet of all who know her, was wanted for service in the team, was driven into the corral, haltered and given her allowance of ground barley preparatory to hard work. Her darling colt was left in a separate corral to be weaned, in spite of his frequent protests of "neigh! neigh!" while the distracted Maggie kept "blowing her horn" for the youngster to "come to dinner."

But the separation of the two, during half a day, disclosed the fact which before had been merely conjectural, that the mule furnished a liberal supply of milk which the colt drew in the usual way, and with an evident appetite after a six hours' fast. Further time in the process of weaning made it necessary to relieve the mule of the accumulated lactical secretions by the ordinary process of milking, to prevent serious consequences resulting from her feverish and distended udder.

It is said by those who assume to know, that the mother of the colt died while it was quite young, but it is certain, beyond question, as many witnesses can testify, that the orphaned equine walf could not have been adopted by a more devoted, affectionate and competent foster-mother than Maggie, whom nature very strangely provided with sufficient food for the necessities and growth of the young steed.

Items From the Truckee "Republican."

Boca has given a good "Republican" majority. There were 305 votes polled in Truckee Tuesday.

"Shingles and things" received forty-one votes for Justice of the Peace.

The Banner mill has shut down for the season, and the Boca mill will do the same in about two weeks. J. G. Lemmon, the botanist, has derived much benefit from a long pedestrian excursion in Arizona. The Prof. passed through Truckee Thursday, for Sierra valley, where he intends remaining a few days only, after which he will move his mother to Oakland. He has collected some valuable plants lately, and is on the road to success.

A Patient Prospector's Persistence.

James Gould that H. H. Hartley is still pushing ahead on his mine, the Excelsior, at Meadow Lake. Hartley is just as enthusiastic as ever, and firmly believes that section will ere long be the great mining centre of the Sierra. He works his rock by hand, and has thereby made a living for himself for the last ten years. Some of the rock in the Excelsior is said to go over a thousand dollars per ton. Hartley was the discoverer of the district, and he has remained there ever since. In winter he is generally alone, his only companion being the lonely pines and about twenty or thirty feet of snow.

Washoe School.

Roll of honor of the Washoe school district No. 3, for the month of Oct: William Noyes 98, Louis Winters 97, Bide Noyes 96, Hull Joy 90, David Smith 90, Archie Winters 90, Frank Sauer 90, Ella Smith 98, Grace Porter 98, Nellie Gregory 96, Lena Joy 94, Nava Winters 90, Maude Gregory 90, Ida Sauer 90, Modeste Brufon 90, Kate Sauer 95, Louisa Sauer 94, Nellie Winters 94.

LIZZIE E. NILES, Teacher.

Who will Answer This?

Says the Carson Times: "The late George Martin, who died in Reno of small pox, undoubtedly lost his life through want of proper care. He was attended by Dr. Bergman, and when he had been sick four days and the disease had fairly broken out, was moved from his room in the night time to the County Hospital, a distance of a mile and a half, and even after that it is said to have been sadly neglected."

THE PUBLIC SCHOOL.

Report of The Reno Public School for the Month Ending Oct. 30, 1880.

Rolls of Honor.

The following are the rolls of honor in the several departments:

HIGH SCHOOL.

Kate Garrard 95 per cent, Guy Manning 94.2, Katie Grippen 93.8, Annie Stalker 96.3, Onie Gould 96.1, Annie Williams 99.4, Cora Manning 98.4, Marcus Frederick 97.3, Louis Wintermantel 99.4, Fred Gould 94.4.

ORVIS RING, Teacher.

Frank Lee 96, Geo. McFarlin 95, Nelson Coffin 95, Emie Cutting 95, Grace Williams 94, Minnie Vaillecourt 91, Dora Griswold 90, Fred White 94, George Derrick 94.

MISS L. C. WARREN, Teacher.

Julia Menke 92, Charlie Morton 92, Walter Johns 93, Agnes Conkey 92, May Eaton 95, Charlie Beemer 90, Emma Haslund 90, Millie Hamlin 93, Lottie Derrick 94, Annie Becker 93, Rachel Frederick 95, Benny Leete 90, Angelo McKelvey 92.

MISS L. A. ROYCE, Teacher.

Crissie Andrews 97, Belle Merzhon 95, Minerva Ayers 97, Amanda Ayers 98, Dovie Ayers 97, Eddie Demers 97, Jay Harrison 96, Paul Fredrick 95, James Morton 95, Charlie Gunn 96.

MISS E. M. EMERY, Teacher.

Louisa Hoffman, Jennie McFarlin, Leland Ayers, Frank Coffin, Frank Beemer, Eddie Knust, Bennie Lee, John Schulz.

MISS F. J. GIBBS, Teacher.

Fred B. is a Mule Lake Horse. Says the Times: On Wednesday last O. P. Keyes shipped his fast trotting team, Brushy John and Fred B, to New York City, consigned to that veteran horseman Dan Mace. New Yorkers will remember the extensive stables of Mace on Seventh avenue, and there the team will be cared for during the winter, with daily exercise in the park and boulevards, preparatory to astonishing the trotting world next season. Fred B is the fastest trotter ever brought into Nevada and has made, for a green trotter, some unparalleled bursts of speed. On one occasion he trotted a quarter-mile at a 2:07 gait. Large offers have recently been made for him and refused, as his owner believes he is the coming trotter of America.

The Vote of Lyon County.

Following are the returns from Lyon county: Presidential—Garfield, 355; Hancock, 295. Congress—Daggett R., 352; Cassidy D., 295. Supreme Judge—Beatty R., 336; Belknap D., 310. State Senator—Mack R., 279; Westfield D., 363. Legislative—Likers R., 268; Galloway D., 365; Noyes R., 303; Fallow D., 333; Crownsfield R., 315; Corbett D., 336.

Wm. Tell Sold.

The Greenville Bulletin says that C. H. Lawrence is now the owner of the celebrated trotter, Wm. Tell, having bought him of J. H. Maxwell last week for the consideration of \$1,000.

Who's Solid Now?

210 ELECTORAL VOTES SURE FOR GARFIELD!

TWENTY-FIVE TO SPARE!

A Good Republican Majority in the House.

NEW YORK.

How Garfield Received the News. NEW YORK, Nov. 3.

A special from Mentor, Ohio, says: Garfield received the news at his home, in company with a few friends, without any excitement, and was at first incredulous when reports arrived claiming New York. After reading another bulletin from the Empire State, Garfield expressed his opinion for the first time. Said he: "Gentlemen, if we get New York, as the indications are we have, we can give them the entire Pacific Coast, New Jersey, Connecticut and the Solid South and then beat them." Even as he said this there was no particular excitement in his manner. He was, as one of his neighbors said, "the coolest man in Ohio to-night." The appended message was hailed with cheers: "James A. Garfield: The Republicans of New York City, assembled in meeting at Chikering Hall, send their most hearty congratulations to the President-elect, and assure him of a handsome majority in the State of over 40,000. Down goes 329." From this on the President-elect felt more free to express himself. He said, after one of the most favorable dispatches: "Gentlemen, this result means three things: First, that the American people believe in the nationality of our Government. Second, that they believe in a good, honest, healthy financial policy. Third, they are determined not to narrow and disgrace the sphere of American politics by endorsing a campaign of personal abuse."

How Hancock Took It.

NEW YORK, Nov. 3.

At Governor's Island yesterday afternoon, the first dispatch regarding the result was from Colorado, as follows: "By the eternal God, Colorado district will surely go Democratic." Hancock returned to Governor's Island from the city at 6 o'clock. He walked in his customary slow way up the hill, up the stone steps to his mansion. He was in citizen's dress. As he stepped upon the porch he was greeted by friends who warmly shook his hand, and congratulated him upon the favorable news that had been received. Hancock received the information with a smile and hearty shake of the extended hand, but said, in reply to the congratulations: "We shall know more about the election later." He then entered his house, and did not leave it during the evening. All callers who had no special business were requested to excuse him from receiving them. The impression prevailed for a time that he had been elected, but it is said that the General never gave indication that he shared in the general exultation. At half past nine o'clock Hancock retired to bed, having given orders that he should not be awakened on account of any news dispatches that might be received.

NEW YORK, Nov. 3—5 P. M.

Returns received at headquarters of the National Republican Committee up to this hour indicate that the State has gone Republican by a large majority. Democrats concede this, and in many cases are surrendering their bets. The leading Democratic journals of this city also concede that the State has gone for Garfield, but assert that the majority will not be as large as the Republicans claim.

NEW YORK, Nov. 4.

New York has been carried by nearly 25,000 majority. Every county and district has been heard from, and the only change to be expected is an increase of this majority for Garfield and Arthur. This city has been carried by the Democrats by 41,000, a loss of 13,000 on the vote of 1876. The Republicans gain in almost every county and town, and the Democrats make a gain only in Albany.

PENNSYLVANIA.

PHILADELPHIA, Nov. 3.

Garfield's majority in 61 out of 67 counties is 25,899. Five of the remaining counties gave 3,151 majority

for Hayes in 1876, and the Sixth Lackawanna was not then in existence. Garfield's majority in the State will be about 30,000. The total vote in Philadelphia is: Garfield, 96,764; Hancock, 76,067; Weaver, 261; Dow, 45. Republican plurality, 20,727.

PHILADELPHIA, Nov. 4.

The Times makes the Legislature stand: Senate, Republicans, 29; Democrats, 19; Greenback, 1; vacancy 1 House, Republicans, 119; Democrats, 79; Greenbacks, 3. Republican majority over all on joint ballot, 46.

MICHIGAN.

DETROIT, Nov. 3.

Two hundred and fifty-three precincts, wards and townships give Garfield 18,979 majority. Garfield's majority in the State will probably reach 25,000 to 28,000. The Legislature is strongly Republican. Jerome running so far behind his ticket is attributed to the opposition of the liquor interests. Returns from city wards and outlying precincts come in so slowly that the fate of the county ticket cannot be announced at present. Michigan will probably send a solid Republican delegation to Congress.

DETROIT, Nov. 4.

Garfield has about 40,000 majority in the State. The Legislature is strongly Republican. The Congressional delegation is solid.

VIRGINIA.

RICHMOND, Nov. 3.

The heaviest vote ever polled was cast. The regular Democratic Electoral ticket swept everything by a large majority—probably 10,000 over all. Dezenodorf (Rep.) re-elected in the Second, and Jargensen (Rep.) in the Fourth. There is a close contest in the Fifth between Cabal (Dem.) and Stovall (Readjuster), and in the Ninth between Trigg (Dem.) and Filkersom (Readjuster), with the probabilities favoring the Readjusters.

NEW YORK, Nov. 4.

Returns embracing over half of Virginia swell the victory of the regular Democratic electoral ticket, which, when all the returns are in, will have a handsome majority over both Readjusters and Republicans.

CALIFORNIA.

Murder and Suicide.

SAN FRANCISCO, Nov. 4.

Early this morning Leon Boniface fired three shots at Hattie Lee, on Waverly place, inflicting probably a fatal wound. He then shot himself through the head, causing instant death. Jealousy was the cause of the tragedy, the woman having deserted Boniface for a new partner.

Small Pox.

SAN FRANCISCO, Nov. 4.

A student of the University came over from Berkeley to-day with small-pox, and was sent to the pest-house. Since Monday thirty-six cases of small-pox have been discovered in the city and taken to the pest-house. The health officer has been granted extraordinary powers.

SAN FRANCISCO, Nov. 4.

Complete returns from 502 precincts in this State give Garfield 38,118; Hancock 34,113.

MISSOURI.

ST. LOUIS, Nov. 4.

The State is probably 40,000 Democratic. Frost (Dem.) is elected. In the 9th Congressional District, Ford a Greenbacker, is claimed. Nothing definite is known. Waddell (Dem.), in the 6th District is probably elected, and Merson (Dem.) in the 10th. In the 4th Davis is elected. In the 5th Blank, in the 7th Phillips, in the 11th Clark, in the 12th Hatch and in the 13th Buckner, all Democrats, are elected.

KENTUCKY.

LOUISVILLE, Nov. 4.

The Republicans have gained in six out of seven counties from which official returns have been received. The Republicans have gained very generally. The city gives 5,290 Democratic, a reduced majority. The Democrats will undoubtedly elect a solid Congressional delegation.

TENNESSEE.

MEMPHIS, Nov. 4.

The Republicans gain two Congressmen in Tennessee and elect the Gov-

ernor. Moon is probably elected here to Congress by 1,000 majority. The Republicans gain 11 Assemblymen, and claim the Legislature by virtue of other gains in middle and east Tennessee.

NORTH CAROLINA.

CHICAGO, Nov. 4.

The probable Republican victory in North Carolina is believed here to be quite positive. Republicans say that the State may cause a surprise by their work.

IOWA.

CHICAGO, Nov. 3.

Scattering returns from Iowa show net Republican gains over the vote for Governor in 1879 of about 15 per cent. If this rate holds good in the State, Garfield's plurality over Hancock will be 83,392.

MINNESOTA.

MINNEAPOLIS, Nov. 3.

The State is estimated 25,000 for Garfield. The Republicans have three Congressmen, a gain of one.

ST. PAUL, Nov. 3.

Returns indicate a Republican majority of 30,000.

FLORIDA.

JACKSONVILLE, Nov. 3.

The indications now are that the Democrats will make a clean sweep of the State. Until further returns are had from the strong negro counties nothing positive can be affirmed.

SOUTH CAROLINA.

EDGEFIELD, S. C., Nov. 4.

One negro was killed and eleven wounded in an election riot.

ARKANSAS.

LITTLE ROCK, Nov. 3.

All four Democratic Congressmen are elected. Hancock has the State by 3,000.

COLORADO.

DENVER, Nov. 3.

Colorado 3,000 Republican majority. State, Congressional and legislative tickets that way.

DELAWARE.

WILMINGTON, Nov. 3.

Hancock carries this State by about 1,000 majority.

ALABAMA.

MOBILE, Nov. 3.

All Democratic Congressmen are elected. The Democratic majority in this State is 40,000.

CONNECTICUT.

HARTFORD, Nov. 3.

The Legislature is Republican. Bigelow Governor and the entire Republican State officers are elected. Returns from all but twenty-two small towns give Garfield 59,392, Hancock 58,050. The remaining towns will not alter the result.

INDIANA.

INDIANAPOLIS, Nov. 3.

In 534 precincts the vote stands: Garfield, 100,762; Hancock, 88,854; Weaver, 5,077. This is 43 per cent. of the vote

The New York Times on Rosecrans.

NEW YORK, Nov. 3.
The Times has a column editorial on California and Nevada. It says: In all forecasts of the Presidential canvass of 1880 prepared by Republicans, California and Nevada have been classed as "doubtful." Knowing that this was a just view of the case, the Democrats who relied on carrying one or two larger northern States concocted the so-called "Chinese letter." To a certain extent this delusion has effected the desired result in the first Congressional District, in which General Rosecrans has been elected over Davis. But "Old Rosy," as his familiar friends call him, is personally popular, and the Democrats were wise in putting him forward as their candidate. Unless Rosecrans becomes a different man he will make them very sorry before his term of office expires that they have sent him to Congress. A more erratic, wilful and cranky man does not anywhere exist. He will vote as he pleases when in Congress, regardless of party obligations and party necessities, as though he had never known what political organization is. Rosecrans is an honest man, but is an impractical theorist—a dreamer.

The Next House.

WASHINGTON, Nov. 4.
There is much rejoicing in Washington over the Republican victory among the thousands of government employees and their political friends. The Republican Congressional Committee now figure up the gains made in the Republican membership in the next House of Representatives as follows: Ohio 6, Indiana 2, Pennsylvania 1, Louisiana 1, Tennessee 2, Connecticut 1, Illinois 2, Iowa 2, Kentucky 1, Missouri 2, New Jersey 1, Virginia 1, Wisconsin 1. This makes a gain of 23 members. To offset this, however, the Democrats are reported to have gained two Congressmen in New York, 1 in Pennsylvania, and 1 in California, which deducted from the 23 believed to have been gained by the Republicans, makes a total gain of 18 for the Republicans. This gain, if verified by the official figures, will secure to the Republicans the control of the organization of the next House by a clear majority of 13 over the Democrats and Greenbackers combined, and give them 7 more than a majority of the entire membership of 293.

The "Courier-Journal's" View.

LOUISVILLE, Nov. 4.
The Courier-Journal considers the result the defeat of the Democratic politicians. The abandonment of Tilden followed the revolt of Kelly. The obduracy of Hendricks, the nomination of Landers, the ruling of the Indiana Supreme Court against the decision of the people, and the nomination of English, begun on the low plane of besmirching General Garfield, fell flat. The Greenback coalition rottenness was a confession of weakness. English refused to come down with the stamps, and so was a disappointment. As party divisions now stand, the Republicans can elect any ticket they nominate, and Grant four years hence is foreshadowed. It is clear the existing apportionment of parties cannot endure. With the break up of the South, which can no longer be held solid, will come in time a break of the solid North.

San Francisco Grand Jury Report—The Sheriff Indicted for Felony.

SAN FRANCISCO, Nov. 5.
The Grand Jury filed a report to-day. The indictments were ordered withheld for the present, but it leaks out that Sheriff Desmond has been indicted for felony in permitting the escape of prisoners. A citation has also been issued commanding Mayor Kallach to show cause why he should not be punished for contempt in attacking the Grand Jury in a prelude to his sermon last Sunday evening. The report attacks a number of county officials and institutions, and praises others. It is noticeable that the unfavorable comments are confined to officers elected by Workingmen.

Oregon Safe for Garfield.

PORTLAND, Nov. 4.
The latest election news gives a clear Republican majority west of the Cascade mountains of 1,000. This includes the southern counties. In the counties east of the mountains the Democratic majority is not likely to be over 700, and will not exceed 800 at most. Allowing for all possible

errors in the estimates for parts of counties not yet reported, the Republican majority cannot fall below 300. Most of these figures are based on actual returns. The State is sure for the Republicans, though by a majority less than was expected.

Nevada County Republican.

NEVADA CITY, Nov. 4.
Of the 34 precincts of the county, all have been heard from except one. The Republicans elect their straight ticket beyond a doubt. Twenty-six precincts, from which complete returns have been obtained, give Garfield 2,102, Hancock 1,838, making a majority for Garfield of 264. The other eight precincts will run about even. The Republicans elect Assemblymen and Supervisors by a fair majority. Long, Weir and Patterson, Republicans, are elected to the Assembly.

NEW YORK, Nov. 4.

The Garfield States are estimated thus: Colorado, 3,000 majority; Connecticut, 2,500; Illinois, 35,000 to 40,000; Indiana, 5,000; Iowa, 70,000; Kansas, 40,000; Massachusetts, 30,000 to 40,000; Maine, 4,500; Minnesota, 25,000; Nebraska, 15,000; New Hampshire, 3,000; New York, 20,000; Ohio, 30,000; Oregon, 1,000; Pennsylvania, 35,000; Rhode Island, 5,000; Vermont, 25,000; Wisconsin, 15,000.

A Possible Cabinet.

NEW YORK, Nov. 4.
A Herald Washington special says: Gossip has been making the following Cabinet for Garfield: State Department, Ben Harrison or General Grant; Treasury, Sherman; War, Grant or Don Cameron; Postoffice, Thomas C. Platt; Interior, General Logan; Attorney-General, John G. Wilson or Ben Harrison. Mr. Blaine is left out in the cold.

What a Memphis Paper Says.

MEMPHIS, Nov. 4.
The Avalanche declares that the denunciation of Garfield as a thief, perjurer and liar was one of the chief elements in the Democratic failure. The low character of Barnum's campaign and his fantastic tricks was another. The consequences of the election will be the dissolution of the two solid sections.

Tennessee Likely to be Republican.

NASHVILLE, Nov. 5.
Seventy-six out of 94 counties give Hawkins (Rep) for governor 15,000 majority. The remainder of the counties in 76 gave Hayes 2,000 majority. The Legislature stands: Republicans 35, Democrats 22, Repudiationists 4, in doubt 25. The Republicans are likely to get a majority and U. S. Senator.

Political Prospects.

WASHINGTON, Nov. 4.
Republicans think that John A. Kasson, of Iowa, is the most available man for the Speakership. Secretary Sherman will contest the Ohio Senatorship with Foster, Taft and Matthews. Justices Hunt and Clifford will give place to Devens and Edmunds.

Mt. Hood in Eruption.

PORTLAND, Nov. 4.
At half-past nine last night a slight earthquake was felt. Since then this morning a white vapory smoke has been coming from the crater on the top of Mount Hood. Its size and density vary. The general opinion is that we will witness an eruption of the first magnitude.

New Jersey.

NEW YORK, Nov. 4.
Ludlow's majority over Potts, for Governor of New Jersey, appears to be about 600. The majority for the Democratic Electoral ticket will be about 2,000.

Spreading the Gospel.

NEW YORK, Nov. 5.
The General Committee of the Missionary Society of the M. E. Church to-day appropriated \$26,000 for missions in Mexico, with a contingent fund in addition of \$14,014. A \$30,000 appropriation for Japanese missions was also made.

The "Herald's" Advice to Democrats.

NEW YORK, Nov. 5.
The Herald advises the Democratic wagon, which is mired, to unload, commencing with Kelly, Barnum and Senator Randolph. Finally the Herald says: The Democrats ought to get rid of the people who imagine they can carry an election by the invention of Chinese letters. When Hancock wrote Senator Randolph his notion about the

tariff the public, which is not an ass, began to laugh at poor Hancock; but when Barnum, Hewitt and other famous Democrats clutched at the miserable Chinese letter business as their one hope of salvation, the public laughed at the Democratic leaders. It is a bad thing for a party when its leaders begin to be looked upon as comic characters.

Around the World.

CHICAGO, Nov. 5.
Cyrus W. Field arrived in this city yesterday afternoon. In reply to a question as to the particulars of his intended trip around the world, Field said: We left New York early yesterday and arrived here this afternoon. We shall travel in a special from New York to San Francisco. To-night we leave Chicago, stopping one day at Denver and another at Salt Lake, sailing from San Francisco on the 18th. We shall visit Japan, China, India and other places we may desire to see at the time. Thence we shall complete the circuit of the globe.

Will you be considering plans for another cable this time across the Pacific?

Oh, no. Yet such a cable would materially increase our commerce with China, Japan and India. It would complete the circuit of the globe and give us commercial communication with both countries. We cannot now communicate with the Sandwich Islands, and our telegraphic connection with the Orient is now through Europe. It ought to be direct. As it is now, however, all important points are in direct communication with New York by wires.

At Loggerheads.

NEW YORK, Nov. 5.
Both factions of the Democracy, both here and in Brooklyn, are abusing each other heartily over the result of the election. Each accuses the other of treachery and incompetency, and the quarrel bids fair to create a wider breach between the factions than already exists.

The World says: The responsibility for the Democratic defeat is placed by the Democrats of the country at large upon the shoulders of the Democrats of New York. We regard this responsibility as beyond doubt rightly placed. The Democrats of this city know now that they cannot possibly lose anything by refusing absolutely to follow any longer blind leaders whom they have hitherto followed, or to make the votes of honest men the stakes of desperate political gamblers or the sole support of politicians who cannot be taught to know a brick wall when they see it.

Virginia Perhaps Republican.

WASHINGTON, Nov. 5.
Later returns from Virginia show that the contest between the Republican and regular Democratic Electoral tickets is very close, and some hopes are entertained that Garfield may come in ahead when the whole State has been heard from. A gentleman here received the following dispatch this afternoon from Edmund Burke, U. S. District Attorney for Virginia: "Virginia is in doubt; half the State gives only 4,000 Democratic majority, and strong Republican counties are to be heard from. The Democrats are inclined to concede the State."

An Action For Divorce.

NEW YORK, Nov. 5.
The Sun says: Winchester Britton, ex-District Attorney of Kings county, has been retained to bring an action for divorce by Mrs. Kate Chase Sprague against ex-Governor Sprague. He will have the papers ready for service in a few days. Britton, on his visit to Providence last week framed replacement papers for a piano and a portion of Mrs. Sprague's wardrobe, and placed them in the hands of the Sheriff to serve. He has since learned that they have been served.

The Democratic Scape-goat.

NEW YORK, Nov. 5.
John Kelly is receiving all the kicks and abuse. The Sun this morning says: From ditch to ditch, deeper and deeper into the mire, John Kelly leads the Democratic party. The possession and retention of the office of Comptroller of New York by John Kelly has lost to the Democracy control of the Government of the United States for the next four years.

What English Says.

INDIANAPOLIS, Nov. 5.
In an interview with W. H. English this morning he talked freely about the late election and its results. He

thinks Indiana has held up remarkably well considering the defeat in October, and that they have not had a majority in the State since '72 and then less than 1,200 for Hendricks for Governor. Personally he feels no chargin at the result.

The New York "Times" on Fair and Sharon.

NEW YORK, Nov. 5.
Regarding Fair and Sharon, the Times says: So far as men are concerned, the Senate of the United States will not gain or lose by the exchange of Senators in the new Senate. The habitual absentee has incidentally done his best to destroy the Republican majority in the little State which, by a great stretch of courtesy, is called his own.

General Sherman's Retirement.

WASHINGTON, Nov. 5.
The story of General Sherman's intended retirement causes great amusement in army circles. General Sherman has now nothing to do but to amuse himself as he pleases, running about the country at the Government expense during the summer and dancing attendance upon pretty girls in Washington during winter. He has the best place under the Government.

Minnesota's Complete Count.

ST. PAUL, Nov. 5.
The first count of the vote by counties is just completed. Garfield's majority is about 40,000. The majorities in the Congressional Districts are: 9,000 in the First, 5,000 in the Second, and 8,000 in the Third. The Legislature stands: Senate—Republicans, 35; Democrats, 10. House—Republicans, 85; Democrats, 15; Greenbackers, 10.

The Nevada Elections.

CARSON, Nov. 5.
The loss of Nevada is on all sides ascribed by the Republicans to the work of Sharon.

VIRGINIA, Nov. 5.

The counting here still goes slowly on. So far Hancock has about 350 majority. The State goes about 600 Democratic majority.

Democratic Losses in Missouri.

ST. LOUIS, Nov. 5.
Latest returns from the Sixth Congressional District elect Hazeltine, Greenback Representative, over Waddle, Democrat, by about 500 majority. This is the fourth Democratic loss in the State. The Greenbackers have gained two Congressmen and the Republicans two.

Trial of Philp.

NEW YORK, Nov. 5.
Nothing of importance took place to-day in the Morey letter inquiry and the examination was adjourned until Tuesday next, to give the defense an opportunity to bring some witnesses from Massachusetts.

GALVESTON, Nov. 4.

The Democratic State and National ticket has carried by 70,000 majority. Shepherd (D.), for Congress, is elected, giving Texas a solid Democratic representation in Congress.

The Walking Match.

LONDON, Nov. 5.
In the walk for the Astley belt, the score at 4 o'clock stood: Rowell, 452; Littlewood, 404; Dobler, 391.

Latest From California.

SAN FRANCISCO, Nov. 6.—P. M.
The latest returns from the State give Hancock 90 majority. There are a few small precincts yet to hear from. It will require the official count to decide the result in the State, but the Republicans will get one Elector, as Judge Terry is known to be scratched several hundred.

The Republicans appear to have elected forty Assemblymen, giving them a good majority on joint ballot.

Mayor Kallach Arrested.

SAN FRANCISCO, Nov. 6.
Mayor Kallach was arrested to-day by virtue of the recent action of the Grand Jury.

The Wardenship.

There is likely to be a goodly number of candidates in the field for the office of Warden of the State Prison. J. E. Jones, of Reno, has already been named. The GAZETTE is informed that W. Garrard, also of Reno, is a candidate for the position. Other counties will no doubt furnish additional applicants for the prize. The post is filled by the vote of the Legislature on joint ballot.

Personals.

John Frazier and wife have gone East.
Matt. Lammon, who once lived in Glendale, died in Kansas last September.

EDITORIAL NOTES.

The keenest remark at the expense of Sara Bernhardt's lean proportion is that made by Dumas. Looking at a picture of the Bernhardt and her dog, he remarked that it was the picture of a dog looking at a bone. The actress is the fashionable topic in New York. It is said among other things that her feet are only four inches long. She brings to America 75 pairs of shoes, 300 pairs of gloves and 40 new dresses. She has some wonderful hats.

J. W. Simonton, the agent of the Associated Press, is unwilling to be deprived of that honor which prophets proverbially never receive in their own country. Accordingly he telegraphs to the press of this coast, directing attention to the accuracy of his predictions respecting the Presidential election. If Simonton's infallibility had been discovered in time, the country might have been saved the expense of an election, by leaving the decision in his hands.

"Mr. Sharon's fight in Washoe was entrusted, apparently, to green hands, and the result was an ignominious rout. The sack, such as it was, was opened at the early hour of 9 o'clock on election morning, and before noon nothing was left. Dr. Dawson, Republican candidate for State Senator, is accorded with being one of the almoners of the bounty."—Carson Times.

The Times is informed that the statement respecting Dr. Dawson is a lie. The sack it refers to was a myth.

"Was there a glacial man in America?" is a question that interests the scientists. This is perhaps doubtful, but it is definitely known that there always will be a glacial man in America while Charles Francis Adams continues to live in the country.

Storey county gave 405 majority for Hancock, 383 for Cassidy, and 1,102 for Belknap. The Democratic Assembly ticket was elected by a majority of 1,589, taking for comparison the highest vote received on each ticket.

The trial of Philp for malicious libel in forging the Morey Chinese letter has been adjourned till Tuesday next. His guilt has not been established. The evidence is contradictory. There is no doubt that the letter itself is a forgery, but it may not have been executed by Philp.

New Jersey has 9 Electoral votes, Nevada 3, California 6, and Oregon 3. Allowing these and the Solid South's 138 votes to the Democrats, they would be 26 short of 185, and Garfield's majority in the Electoral College would be 51. The Republicans could easily throw in a few more States and have votes to spare.

Sixteen U. S. Senators are to be chosen this winter by Legislatures elected last Tuesday in the following States: California, Connecticut, Delaware, Florida, Massachusetts, Michigan, Minnesota, Missouri, Nebraska, Nevada, New Jersey, New York, Pennsylvania, Tennessee, Texas and Wisconsin.

Fish Commissioner Redding is going to get some gouramis from China for California waters. The fish is said to have a fine fibre and delicate flavor. It would find favor with gourmets.

The famous bay colt Robert the Devil was not sold in London last week as was expected, because his owner's reserve price of \$63,000 was not bid.

The official returns show that Ohio polled an enormous vote in October—an increase of 45,469 over the highest vote ever cast before.

The publication of the Free Lance has been resumed, at Grass Valley. The establishment was removed from Nevada City.

The Democrats who were so thick in the woods of Indiana must have remained in the shelter of the timber last Tuesday.

California remains in doubt. It may require the official returns to decide the election. Virginia is claimed by hopeful Republicans.

San Francisco gives Hancock a majority of 2,404, and elects Rosecrans (Dem.), to Congress in place of Davis (Rep.).

The most unpopular man in Nevada to-day is Senator Sharon. He is no exception to the rule that every dog has his day.

Joe Wasson has been elected an Assemblyman from Mono county, Cal. Mono gives Hancock a majority of 84.

What? California and Oregon and Tennessee too! This makes 231 for Garfield. Good enough.

JOTTINGS.

—Utah is assessed \$2 a share.
—Belcher is assessed 75 cents.
—Freezing cold nights are the rule now.

—The defeated candidates bear up bravely.

—Real Del Monte is assessed 25 cents.

—Salt Marsh gave its solid 15 votes for Hymers.

—Get vaccinated—it is better to be sure than sorry.

—Sunderland is selling a great many hats now to betters.

—The assessment is delinquent on Yellow Jacket.

—Reno Republicans have nothing but curses for Sharon.

—J. E. Jones is named as the next warden of the State Prison.

—The Pacific Lumber and Wood Company is selling cut slab wood at Clinton for \$25 a car load.

—The Lake case continues on trial in the District Court. The defendant was upon the stand this morning.

—I. Fredrick is displaying some beautiful jewelry, watches, chains, silverware, etc. Take a look at his stock.

—The betting men are settling up now. The sale of hats and suits of clothes at the White House to-day has been remarkably large in consequence.

—If the gentleman who called at this office the other day to subscribe for the Weekly Chronicle will send his address he will oblige. It has been lost.

—The vote for the Constitutional Amendments was unanimous in this county. In Reno only two votes were cast in favor of Chinese immigration.

—Mr. Don't give a damn is glad that the election is over. He is satisfied that the grass will grow and the rivers run no matter what party gets in power.

—The question of the occupancy of the White House is settled. For the next four years, and in all probability for life, Abrahams Bros. will continue to occupy the establishment and to sell at the lowest prices the latest styles in clothing and men's furnishings goods.

Trouble in Tuscarora.

Says the Times-Review of the 4th inst: We understand that there is a movement on foot to throw out Tuscarora Precinct on account of informality in holding the polls at another place than that designated by the County Commissioners and because two of the officers of election were candidates for School Trustees. If this precinct should be ruled out (which we by no means believe) it would result in increasing the Democratic Electoral vote in the State by twenty-one votes, and defeat Kingston, Campbell and Honeyman, Republican candidates for District Attorney and Commissioners, who, as the vote now stands, are undoubtedly elected. The throwing out of Tuscarora Precinct would not affect any of the Democratic nominees who are elected with the vote of this place.

Can't Do Without His Trunk.

Conductor Bethel informs the Silver State that a man, whose name he could not learn, is now east of Elko, on his way west, with a large trunk and a big box. He says the fellow carries the trunk about a quarter of a mile at a time, and then goes back and gets the box. In this way he travels over the road three times, and has made the trip from Omaha west this summer. What object, if any, the idiot has in carrying the trunk, which is said to contain nothing but old clothes, has not been ascertained.

More Assessments.

Ophir is assessed one dollar, Imperial ten cents.

ROYAL BAKING POWDER
Absolutely Pure.

Made from Grape Cream Tartar.—No other preparation makes such light, fluffy hot breads, or luxurious pastry. (Can be eaten by dyspeptics without fear of the ill results from heavy indigestible food. Sold only in cans, by all Grocers.)
ROYAL BAKING POWDER CO., New York.
Oct-ly-D&W

BY TELEGRAPH.

Total Vote of Connecticut.

HARTFORD, Nov. 5.

The total vote of Connecticut for President, as shown by the complete returns from official sources, was 132,562. Garfield's plurality is 2,570. The total vote for Governor is 132,285. Bigelow's (R.) plurality is 2,331.

General Hawley will probably be elected United States Senator.

A Divided House

CHICAGO, Nov. 6.

The Journal's Washington special says: The Republican majority in the House is going to be uncomfortably close. McPherson figures out to-day only one majority. The gains made on Tuesday in Congressmen were as follows: Virginia 1, Tennessee 2, Louisiana 1, Iowa 2, Minnesota 1, Wisconsin 1, Missouri 1, Pennsylvania 2, Illinois 1, Kentucky 1, making a total of 18. The losses are as follows: New York 4, Nevada 1, and California 1, making 6 in all, a net Republican gain of 7, which added to the gains made in October, and other Republicans elected, give them a total vote of 147, to 146 votes for the Democrats. These estimates give the Democrats all the Greenback vote, which in all probability they will not get. Information reaches here to-day that the Democrats in Louisiana are talking about withholding the certificate of Darrall, Republican member elect from the Third District, and if they do this the next House will be a tie, unless some of the Greenback members or the two Readjuster members from Virginia vote with the Republicans.

The Majority in New York.

NEW YORK, Nov. 6.

Correct returns make the majority for Garfield in New York about 23,000. Republicans throughout the Nation may rest assured that the difference between these and the official figures cannot exceed a few hundred, and the votes of the State will be counted as cast.

Hancock Disapproves.

CHICAGO, Nov. 6.

A Times' New York special says: There is the very best authority for the statement that General Hancock wrote Chairman Barum that the proposition to contest the vote of the State did not meet his approval, being based on unprovable statements.

Garfield's Popular Majority.

NEW YORK, Nov. 6.

An examination of the majorities cast by the several States shows that Garfield has probably received 80,000 more than Hancock.

Garfield's Majority in Iowa.

DES MOINES, Nov. 6.

Garfield's majority will probably be 85,000.

Capture of Sharp, the Escaped Robber.

CANDELARIA, Nov. 7.

M. A. Sharp, the noted stage robber, was caught here at ten o'clock to-night by Deputy Sheriff McLeod. A big reward had been offered by Wells Fargo. Sharp had already been convicted of highway robbery. He escaped from the Aurora jail last Tuesday.

"Confidential" News.

CHICAGO, Nov. 8.

The Times' Washington special says: Walter Carpenter has stated confidentially that Gen. Grant prefers the Secretaryship of War to the Illinois Senatorship, and probably will be offered that position. Blaine has Eugene Hale in training for a Cabinet position.

Wife Murder at Bodie.

BODIE, November 8.

Job Draper was arrested on Saturday for the brutal murder of his wife at a point on the road between Bodie and Mammoth City, and about four miles from Bodie. The couple had moved to this new location on Friday and had not yet provided themselves with a house. After building a fire of sagebrush Draper accused his wife of hiding his gun and a jug of whisky. Some woodchoppers, who were passing, heard them disputing about the matter, but, thinking it was only a drunken quarrel, moved on in the darkness. The following morning Draper went to a ranch and stated that his wife was dead, and was accompanied by two men to the scene. They found the body horribly bruised

and cut. Her face was frightfully mangled. Draper was arrested, but says his wife came to her death by falling out of the wagon.

Terrible Storm in Canada.

MONTREAL, Nov. 8.

There was a terrific wind-storm yesterday and last night. A three-story house on St. Mary's street, occupied by a wholesale and retail grocer, was blown down. Damage to stock heavy. The clipper ship Raventrag was blown on her beam ends at the wharf, but was afterward righted. An unknown man was blown into the river and drowned. A fierce storm of wind and sleet raged throughout the province of Quebec last night. Heavy rains flooded all the New Brunswick streams.

Nothing in the Fraud Talk.

CHICAGO, November 8.

A Tribune Washington special says: John Kelly appears alarmed by the report that he is endeavoring to keep the Presidential question open, and to silence rumors to that effect, notably the one according to which he is reported to have advised all Democrats to decline to pay bets on Garfield's election, he has sent the following telegram:

NEW YORK, Nov. 5.—To George C. Wedderburn, Editor Gazette: The rumors have no foundation in fact.

JOHN KELLY.

The Vote of Oregon.

PORTLAND, Nov. 8.

Additional returns give reason to suppose that the Republican majority on the Electors will not fall below 500. The State is certain by about that figure.

The Vote of Lassen County

SUSANVILLE, Nov. 8.

The official count of Lassen county is: Garfield 323, Hancock 301, Weaver 64, Dow 2, Knight 317, Berry 342, Musselman 29. For Assembly: Fiske 333, Kellogg 326, scattering 7. Expect Modoc Thursday night.

Placer Official Returns.

SACRAMENTO, Nov. 8.

The official returns received by Secretary of State Burns, from Placer county, shows the following majorities: Garfield 225, Page 227, Hale (Republican for the Assembly) 33.

Fire and Loss of Life.

BODIE, Cal., Nov. 9.

A fire broke out in the Goodshaw hoisting works at one o'clock this morning and destroyed the building. The shaft took fire and timbers burned down twenty or thirty feet. As soon as the flames were subdued temporary hoisting works were improvised and Foreman James Hood descended the shaft. There were four men at work on the 660 foot level—McCabe, Smith, Jackson and another man whose name was not ascertained. All were found dead at the bottom shaft. Engineer Parker has not been seen since the fire and it is feared he may have been burned in the building.

A miner named Dogan was killed in the Tieg mine this morning by a rock falling on him.

Congressional Speculations.

WASHINGTON, Nov. 9.

All sorts of speculations are rife as to the coming administration of General Garfield, the organization of Congress, etc. It is said that Garfield will not resume his seat in the House, and that his successor will be at once elected. He will, of course, also resign his Senatorship, and it is thought Sherman will be a candidate therefor instead of remaining as Secretary of the Treasury.

Attorney General Devens will probably be elected to the Supreme Bench by the next Congress.

There is talk of the candidacy of Geo. Francis Dawson, formerly of California and late Librarian of the Senate, for Sergeant-at-Arms of the House.

Should Malone, of Virginia, act with the Republicans, the Senate will be a tie before the members to be elected this winter will take their seats. This fact causes some anxiety to both sides, each of which naturally wishes to control the organization of that branch.

Garfield's Vote in the North.

NEW YORK, Nov. 9.

The Tribune says: Of all the Northern States three are claimed to have voted for Hancock. The State of Camden and Amboy by a plurality of about one thousand, the State of Bonanza Kings by a majority of about five hundred, and California, if at all, by a majority so small that a microscopic examination is needed to de-

fect it. Beyond these, no Northern State is by anybody supposed to have voted for the Democratic ticket; and New Jersey was turned by a railroad company, Nevada by a millionaire, and California by a forgery so palpable that it would not have deceived the most stupid Celestial in China-town. Garfield goes into the Presidency with a clear majority of the popular vote, although sixteen States were counted and three more stolen by his opponents.

Contesting New York.

NEW YORK, Nov. 9.

The Republican headquarters are closed; the Democrats are still open. An important conference of the Democratic leaders was expected to be held last night. Randall, Thurman, Wallace, Hampton, McPherson and others were summoned by Barnum for the purpose of discussing the propriety of contesting New York on the ground of fraud. It is rumored that Hancock discourages the movement and has written a letter forbidding it. If the Board of Aldermen sustains Barnum, the count will go to the State Board of Canvassers, where Seymour, Democrat, will protest against counting the State for Garfield, when the matter will be taken before Congress.

The Republican Committee has issued an address declaring Garfield elected.

Crushed by an Engine.

LATHROP, Nov. 9.

A. J. Pelsa, Central Pacific yardmaster at this place, in getting on the yard engine at 5 o'clock this morning, made a misstep and fell under the engine, which passed over him, causing death in a few minutes. The deceased was a member of the Masonic Order, and the Masons have his body in charge.

Merely a Fizzle.

CHICAGO, Nov. 9.

A Tribune Hartford correspondent had a talk with Governor Jewell who said: "The country need apprehend nothing from all this cry of fraud. It is merely the work of Barnum and Kelly and it will fizzle out in a few days."

The "Sun" on the New York Election.

NEW YORK, Nov. 9.

The Sun this morning throws a damper on Democratic spirits. It says: "We hear some talk about taking away the Electoral vote of New York from Garfield, to whom it belongs, and giving it to Hancock, to whom it does not belong. Garfield was legally elected. If he lives till March 4, 1881, he will be inaugurated. New York was counted for Hancock before election day largely on the strength of Kelly's protestations. Since that day, and on the strength of cold facts, it has been counted for Garfield. It is not likely to be counted for Hancock again at present."

Death From Small-pox.

STOCKTON, Nov. 9.

C. G. Hubner, a prominent and influential citizen of this city, died on Sunday of small-pox. Two of his children are down with the disease. Hubner was formerly a member of the City Council.

The Plague Abating.

SAN FRANCISCO, Nov. 9.

Only one case of small-pox is reported thus far to-day.

San Francisco's Vote—The Evangelist.

SAN FRANCISCO, Nov. 10.

The canvass of the city vote by the Board of Commissioners was completed this morning but the footings are not yet made.

Moody and Sankey arrived to-day.

Shiloh's Consumption Cure.

This is beyond question the most successful Cough Medicine we have ever sold, a few doses invariably cure the worst cases of Cough, Croup, and Bronchitis, while its wonderful success in the cure of Consumption is without a parallel in the history of medicine. Since its first discovery it has been sold on a guarantee, a test which no other medicine can stand. If you have a Cough we earnestly ask you to try it. Price 10 cts., 50 cts. and \$1.00. If your lungs are sore, chest or back lame, use Shiloh's Porous Plasters. Price 25 cts. Sold by Osburn & Shoemaker, Druggists, Reno, Nevada.

A Card.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. JOSEPH T. INMAN, Station D, New York City may 7-10-d&w

The San Francisco Globe has suspended publication.

Southern Nevada Railway.

On Saturday last, in Battle Mountain, the organization of the Southern Nevada Railway was perfected, and the articles of incorporation sent to Carson City for filing in the Secretary of State's office. Following are the officers of the company: President, Jos. Collett; Vice President, Anson Phelps Stokes; Secretary, C. W. Hinchcliffe; Treasurer, Jos. Collett. Directors—Jos. Collett, R. Amerman, A. A. Curtis, M. J. Farrell, A. Nichols, D. B. Hatch, A. S. Stokes, W. B. Isham and B. B. Sherman. The Austin Reville says: "It is the purpose of this company to commence operations just as soon as the weather will permit in the spring, and push the road through to Grantsville as fast as men and money can do it. The rolling stock and steel rails for the entire distance are already engaged."

Huffaker's School Report.

The following is the Roll of Honor for the month of October: Dora Longley, 100; Alice Ede, 99; Olive Douglas, 96.8; Lizzie Longley, 96.8; Martha Douglas, 91.7. Neither absent nor tardy, Nellie Ede, Stella Ede, Olive Douglas, Dora Longley, Jennie Longley and Lizzie Longley. Whole number enrolled, 33. Average daily attendance, 26.

HENRY FANCHER, Teacher.

Died of Small-Pox.

Thomas Henry died at Sacramento last Friday of confluent small-pox. He was telegraph operator at Blue Canyon, and a brother of Patrick and William Henry of Verdi.

Catarrh Sometimes.

Commences with a cold, but its cure always commences with the use of Sage's Catarrh Remedy. This old, reliable and well-known remedy has stood the test of years, and was never more popular than now.

Answer this Question.

Why do so many people who are around us seem to prefer to suffer and be made miserable by Indigestion, Constipation, Dizziness, Loss of Appetite, Coming up of the Food, Yellow Skin, &c., for 25 cts. we will sell them Shiloh's Vita Lizer, guaranteed to cure them? Sold by Osburn & Shoemaker, Druggists, Reno, Nevada.

HOSTETTER'S
CELEBRATED
BLOOD PURIFIER
STOMACH BITTERS

Meets the requirements of the rational medical philosophy which at present prevails. It is a perfectly pure vegetable remedy, embracing the three important properties of a preventive, a tonic, and an alterative. It fortifies the body against disease, invigorates and revitalizes the torpid stomach and liver, and effects a most salutary change in the entire system, when in a morbid condition.

For sale by all druggists and dealers generally.

DR. SPINNEY
NO. 11 KEARNEY STREET,
San Francisco, Cal.

Treat all Chronic and Special Diseases.

YOUNG MEN

WHO MAY BE SUFFERING FROM the effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. DR. SPINNEY will guarantee to forfeit \$500 for every case of Seminal Weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN.

There are many at the age of thirty and sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits aropy sediment will often be found, and some small particles of albumen will appear, or the color will be of a thin, milky hue, again changing to a dark and turbid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

Office Hours—10 to 4 and 6 to 8. Sundays from 10 to 11 A. M. Consultation Free. Thorough examination and advice \$5.

P. S. For private diseases of short standing a full course of medicines sufficient for a cure, with necessary instructions, will be sent to any address on receipt of Ten Dollars. Call or address

VACANT HOUSES.

A Scarcity of Houses to Rent in Reno—Necessity for Repairing the Old Shells.

RENO, Nov. 9.

Editor Gazette.—I wish to call attention to the fact that there are a great many families moving into Reno just now, and houses are getting very scarce. In a week or two there will not be a vacant one to rent. While driving around town I have noticed a few shells of houses, that, if their owners would spend a few hundred dollars in repair on them, could be made to accommodate a few more families. We ought, by all means, try to accommodate all who wish to make Reno their home, either for the purpose of educating their children or other objects. Vacant houses are very unprofitable property as well as dangerous to adjoining ones, and, I might say, are an eye-sore to the town. There is an old, miserable looking, dilapidated shell of a house, located on the south side of Second street, opposite the residence of L. L. Crockett, the owner of which ought to either put it in a habitable condition or tear it down.

In conclusion, I wish the owners of all vacant houses (those not in a condition to rent, by reason of their dilapidated condition) would fix them up, so they can be occupied, for the reason that I am of the opinion we will be short of from 20 to 30 tenement houses this coming winter. Financially it will be a great loss to the town if we cannot accommodate all who wish to make Reno their home. This is a matter which should be looked into by everybody who has an interest in the welfare, growth and prosperity of our town.

C. S. MARTIN.

A Little Affair in Benton.

Benton over in Mono county, though not so stirring as Bodie, is still a very lively camp, that is for a little camp. In a Ben-on saloon the other day three residents had some trouble and drew their six-shooters to settle it. Each fired six shots. The result of the engagement is thus described by the Candelaria True Press: "After the trouble was over it was discovered that Jim Miller was shot in the fleshy part of the left arm and that a ball had struck him just over the heart, but that a package of letters in his vest pocket had stopped it. Pat Guilfoyle, who was under arrest for beating a man over the head with a beer glass, and who rushed up to see the fun, caught a stray bullet in his leg, and wished he had been kept in jail instead of being out on his own recognizance. The men were only a few feet apart at the time of the shooting, and the local paper is so ashamed of the bad marksmanship displayed that it doesn't say a word about the matter. No arrests."

It Would be Convenient.

The GAZETTE is not a faultfinder, but it has often thought that the efficiency of the Post-office might be greatly increased if the boxes were so placed that they would be accessible to the public at any time of the day or night. At present the iron doors are closed about nine o'clock and are not opened until after 7 o'clock in the morning, and on Sunday they are only open a few hours. When closed there is only a narrow slot to receive letters and none large enough for papers or magazines. A good many citizens who have boxes would like to get into them early when they take the train for Carson or Virginia at 6:50 or the one for Verdi and Truckee at 7. Many times those coming in at 1:30 A. M. want to get their mail. Almost all the Post-offices on the coast have boxes so arranged, and it could probably be done here without much expense.

A Case of Paralysis.

VERDI, Nov. 9.

Editor Gazette.—A man named Geary, who lives alone on a ranch one and a quarter miles west of Verdi, was found in his house this afternoon insensible from paralysis of the brain. There is no hope of his recovery. He is a native of Pennsylvania, sixty-one years old. He is supposed to have a step daughter in Marysville. He has been on this coast a number of years.

Death of Geary.

SPECIAL TO THE GAZETTE.

VERDI, Nov. 8.

Geary, the old man found paralyzed in his cabin, is dead.

An Old Friend in a New Place.

The GAZETTE presents the name of an old friend to-day, one who has done a great deal of business in Reno, and who, after quite a good rest, has concluded that there is no better place to set his stakes than here. Gen. Hagerman has fitted up a large double store on Commercial Row, and has filled it with a stock of groceries, hardware and provisions. No one knows better than the General what Washoe county and vicinity need. His goods are all fresh and pure, his prices low, and his old-time customers are hunting him up already.

A Curious Story of Robbery.

Two men arrived in Reno from Carson last Saturday evening and took a room at Mrs. Mann's lodging house on Virginia street. One of them was apparently very drunk at the time, and the other put him to bed and then went out. He soon after returned, making a stay of a few minutes, again went out and did not return. On the following morning the man who had been put to bed made his appearance and from the inquiries he made evidently supposed himself to be in Carson. His surprise was very great when he found himself in Reno. He then said that he had been drugged in Carson. He had no knowledge of his trip to Reno. He had been robbed of \$200 in coin, a gold watch and a pistol. He did not know the name of the man who brought him to Reno. No trace could be found of the robber.

The man who was robbed is still in town, awaiting the receipt of a remittance from his wife. His home is in Benton, Mono county, Cal., and his occupation that of cattle raising. He was on his way to visit his old home in Ireland, and met in Aurora the man who robbed him. They traveled together and stopped at the same hotel in Carson. The man who was robbed recollects going to bed drunk in Carson, and when he recovered his senses found himself in Reno with his pockets empty.

The Lake Divorce Suit.

The argument in the divorce suit of Lake vs. Lake was opened in the District Court Tuesday morning by Mr. Varian, for the plaintiff. The juryman are: J. E. Fowler, C. W. Wellman, Wm. Wright, E. Bates, D. L. Hunt, A. G. Fletcher, Colon Hall, A. Jaudan, Sylva Flynn, A. D. Case, L. T. Heath and B. F. Fletcher. They will have been so long by conflicting emotions and contending sympathies by the time the trial ends, that they themselves will have become objects of commiseration. The souls of the juryman were sorely tried to-day. Eloquent counsel on both sides strove to harrow up their feelings. Mr. Varian's opening speech was a moving appeal in behalf of his fair client, who was present in the court room. He painted the defendant in the darkest colors. Acts of the grossest cruelty were dwelt upon at length. The attention of the jury was called to certain evidence to prove that the defendant had struck the plaintiff, had called her vile names, had once cuffed her for breaking a saucer, and had been guilty of other acts of cruelty. The virtues of the plaintiff were eulogized—her constancy, her devotion, her patience under affliction, her long suffering, her jealous fondness for her children. The courtship of Lake was feelingly described. His marriage to his second wife had taken place before the grass was green on the grave of his first. Then followed the whole catalogue of the defendant's conjugal sins.

The Shooting of Robbins at Bridgeport.

Dr. Hogan says that Henry Robbins, who was shot at Bridgeport last Tuesday, was twenty-four years old and a native of Vermont. Robbins had been at work for John Devoy at Bridgeport for some time. After being shot Robbins telegraphed for Dr. Hogan to come and attend him, but the Dr. was unable to go. Robbins' wounds were reported mortal. The following telegram was received from Bodie last evening: "The citizens of Bridgeport and vicinity having formed themselves into a Vigilance Committee to hang T. E. Hawkins, who shot Henry Robbins a few nights ago, the prisoner was brought to Bodie for safe-keeping; but the citizens threatened to lynch him and he was removed to Aurora. The shooting was cold-blooded, and Hawkins will not escape hanging if he is brought back to the county jail."

Trout Canning.

Judge Griswold of Wadsworth put up 300 cans of Truckee trout last winter, but they all turned bitter. He says there was some mistake made in preparing them, probably in not taking all the blood out of them. He is now trying the experiment of pickling them. He has 3,000 pounds put down in kegs. He thinks they will be very nice, but there is no money in the business. He says the fish are full of juice. If a few layers are put in a vat and salted, water enough will soak out of them to cover them. This liquor must be poured off and clean water put on, or they will spoil. He thinks there is where he made the mistake in canning. There are very few fish coming in at present.

The State University.

Says the Gold Hill News: The State University has not been a success, but the cause for that fact may be charged to the Legislature that located the institution at Elko. If it had been located at Reno, Carson, or at some town in the western part of Nevada, where there are pupils in sufficient numbers to fill it, it would now be a source of pride to our young State. The next Legislature should give this matter special attention. It will not do to abandon the University, and give up the land granted to the State for University purposes.

THE FISH LAW.

An Amendment Asked for, so as to Enable Our People to Catch Some Fish in Season.

VERDI, Nov. 9.

Editor Gazette: Would it not be advisable for our Legislature this winter to amend the Nevada game laws so as to give residents of Nevada the same benefit from Nevada fish as residents of California enjoy? Under the present law the catching of fish for market is prohibited after April 20th. As the Truckee river trout do not get west of Wadsworth until the middle or later part of March, it only allows residents of the western part of the State a few days' fishing, while in California the season commences April the first, extending to Nov. 1st. Under our present law we protect the fish while passing up the river through our State to their spawning grounds in California, and amuse ourselves watching residents of the latter State take them in without even a thank-you for our generosity in giving them a safe escort to the California line. Perhaps it may be a fair exchange—their sawdust for our fish—but it looks as if the balance of trade is against us. The season should at least be extended to the middle of May or June first, as there are few if any spawning grounds in Nevada. Our present law is a decided failure, depriving us of nearly all fishing, and affording the fish very little protection.

ISAAC WALTON.

Assessment List.

Following is a list of outstanding assessments upon Comstock mines, and the date upon which they will become delinquent in the Board:

New York—15c; November 11.
Lady Bryan—25c; November 21.
Alpha Con—81c; November 27.
Benton Con—50c; November 27.
Belcher—75c; December 4.
Utah—8c; December 5.
Ophir—81c; December 6.

ASSESSMENTS DELINQUENT.

Following is a list of stocks upon which assessments are delinquent. The day of sale is affixed:

Justice—50c; November 8.
Caledonia—25c; November 10.
Quinn—25c; November 12.
Hale & Norcross—75c; Nov. 30.
Savage—81c; November 26.
Eschewer—50c; December 6.
Crown Point—50c; December 6.

Lawyer Cain Makes Some Scriptural Criticisms.

Lawyer Cain was moralizing Tuesday noon over the passage from Ruth, quoted by Mr. Varian that morning to the jury in the Lake case. Mr. Cain's nice sense of propriety in matters relating to the Scriptures was offended at the application of the words of Ruth to the point raised by the learned counsel. Ruth was not addressing a husband nor a young man whom she was about to make her husband. She was declaring the strength of her attachment for her stepmother when she uttered those beautiful words: "Entreat me not to leave thee," etc. Mr. Cain observes that the women of the present day don't talk in that fashion to the men. They say: "Where thou buildest a fine house I will go, and while thou clothest me well and givest me nothing to do I will leave thee not."

The Small-pox Scare in Virginia.

Says the Enterprise of Tuesday morning: "It is reported, on what seems to be very good authority, that a Chinaman who came to this city some time ago, brought the disease with him from San Francisco and that it was from her that Martin, the brakeman of the Virginia and Truckee railroad, who died of the disease a short time since at Reno, caught the infection."

The Enterprise says there is a lively small-pox scare in Virginia, but only one case is known to exist in the town. The patient is a three-year-old boy. It is reported that there are two cases in Chinatown, but the report has not been verified. Great attention is being paid to vaccination, and the drug stores have sold great quantities of disinfectants. Every child in Virginia wears a bag of camphor about its neck.

A Work of Art.

Aitken & Fish are finishing a stone for the grave of Brown, the locomotive engineer who lost his life in San Francisco bay. On one side a locomotive is represented as just emerging from the mouth of a tunnel. The details are all complete. The smoke stack, head light, pilot, etc., are very natural. The plate bears 155, the number of Brown's engine. On the arch of the tunnel are the words: "All Honor to the Brave." Opposite are two guns crossed.

Vacant Places.

In the dental ranks will never occur if you are particular with your teeth, and cleanse them every day with that famous tooth-wash, SOZODONT. From youth to old age it will keep the enamel spotless and unimpaired. The teeth of persons who use SOZODONT have a pearl like whiteness, and the gums a rosy hue, while the breath is purified and rendered sweet and fragrant. It is composed of rare antiseptic herbs and is entirely free from the objectionable and injurious ingredients of Tooth Pastes, etc.

Lively Fight With a Bear.

W. D. Bullard of Michigan Bluff, Placer county, tells the Truckee Republican the following story of an encounter he had recently with a black bear over in Indian Canyon. On the morning of October 26th last, Mr. Bullard was hunting for some of his stock. As he was going down the canyon a bear cub jumped up on the side of a tree close by. Mr. Bullard, who was armed with a Henry rifle, shot and killed the cub. No sooner did the cub drop to the ground than the old she bear, which had been lying not over ten feet away, fiercely sprang at Mr. Bullard and before he could get out of her reach she was upon him, tore the clothing off from his person, lacerating the skin, and was proceeding to demolish him generally when his dog, which accompanied him, attacked the bear. The encounter between the dog and bear was fierce, lasting for half an hour. As they rolled and tumbled over each other down the hill, the bear would occasionally shake off the dog, when Mr. Bullard would have an opportunity of giving the bear a piece of cold lead from his rifle. In this manner he shot the bear three times. The dog became exhausted and gave up the fight, while the bear started off through the brush. Mr. Bullard fired several more shots, but did not hit her. The next day Mr. Bullard and several companions found the dead body of the bear, about a mile from the place of the encounter. The cub weighed 105 pounds, and the old one 400.

Always Wipe Off the Anvil.

It is a wonder that no one here was injured during the anvil-firing campaign which has just closed. Small boys were intrusted with the patriotic duty of firing salutes, and were very reckless in regard to powder. They could be seen pointing powder from an open can with sparks from a bonfire whirling about their heads. A Winnemucca man has been less fortunate. One of his eyes was injured by a scale of iron from the face of an anvil which he was using for firing a salute. He neglected to wipe off the anvil after firing, and the next shot scattered the scales, one of them striking him in the eye, and becoming imbedded in the cornea. He has gone below for medical treatment.

Fair and Festival.

The ladies of the Congregational Church Aid Society will hold a Fair and Festival on Wednesday and Thursday evenings of this week, in the Congregational church. A great variety of needle-work and fancy articles will be offered for sale. Refreshments of every sort will be provided. The prices will be reasonable. An excellent lunch will be served for twenty-five cents. On Thursday evening a choice literary and musical entertainment will be given, and an admittance of ten cents will be charged.

The Nevada and Oregon Railroad.

In answer to inquiries from a representative of the GAZETTE, General Hatch stated Monday that Col. Moore, contractor for the Nevada & Oregon Railroad, will leave New York for Reno on the tenth instant. Should the weather prove favorable, grading will be commenced at Reno soon after the arrival of the Colonel. If stormy weather should prevail, then the work will be begun as soon as a favorable change takes place.

Out of Pure Virus.

The doctors are out of bovine virus for vaccination, and are unable to procure a fresh supply. There is none to be had in San Francisco. The doctors and druggists have been telegraphing in all directions for it, but have telegraphed in vain. Some dairy men should inoculate a few cows and keep up the supply of virus. They should be able to get a good price for it now. Let some enterprising rancher get up a corner in bovine virus.

Reform Club.

The Reform Club hall was as well filled as usual on Saturday evening. Mr. McKelvey spoke briefly upon temperance. He urged parents to keep their boys at home in the evening, out of the reach of temptation. He disapproved of the dancing which usually follows the regular meetings, and expressed the opinion that the time so spent had much better be passed in prayer.

Republican Barbecue and Ball at Wadsworth, Nov. 8.

Editor Gazette:—A cordial invitation is extended to the people of Reno to attend a barbecue at Wadsworth, Friday, Nov. 12, 1880, in honor of the Republican victory, after which a ball will be given in Gladding's Hall, free to all.

By order of the Committee of Arrangements.

The St. Clair Case.

Says the Silver State: The case of St. Clair, convicted of murder in the second degree, has been appealed to the Supreme Court, and the transcript on appeal is now being prepared by the counsel, Messrs. Grass and M. S. Bonfield.

JOTTINGS.

—No small pox in Reno yet.
—The pest house is being repaired.
—Who is going to the Wadsworth dance and barbecue on Friday night?
—See notice to M. Harrison's debtors.
—Mrs. Couch can keep a few boarders.
—Sol Levy has some very hand some new suitings.
—Nothing new in the Justice's Court. No arrests.
—A good many people are being vaccinated in Reno.
—Reno has an Indian girl with sandy-colored curly hair.
—Henry lost his badge and hat a day or so ago. See 50 cent ad.
—Union sold at \$9 on Saturday, the lowest point touched in three years.
—Best & Belcher is assessed fifty cents per share.
—C. S. Martin is the man to sell land. He has half a dozen customers for desirable property.
—Gurtenbach's harness turned up at his back gate Sunday morning. No one knows where it was.
—Reno Republicans seem to feel the loss of Nevada too much to get up a jubilee over the election of Garfield.
—Mat. Canavan's trotters, Democrat, Maggie C and her colt, are still at the race track, in charge of Frank Dodds. Mr. Dodds expects to winter them at Gold Hill. They will not be taken below.

—Judge Cossitt thinks that praying in the Reform Club hall on Saturday evenings, in the place of dancing, would not put much money in the treasury of the Club, nor pay the reading room expenses.

—Reno physicians charge \$2 50 for vaccinating a patient. It seems as if this was a very high figure. A dollar would be ample remuneration for a half-minute's work, requiring no skill at all.

—Few men have made more friends in this country during a short residence than Sol Levy. He has shown so much enterprise, such an obliging disposition and such a knowledge of the wants of his customers that his business has grown in a highly satisfactory manner.

—A forged check was passed at the Depot Hotel on Saturday by a sharp-r from Virginia. It was for \$305, signed James Mayberry, and drawn on Paxton, Curtis & Co. Mayberry has no account with that bank. The forger has not yet been captured.

—The Hancock and Garfield hats were raffled at the Arcade Hotel on Thursday. The Hancock hat was won by No. 16, and 94 won the Garfield. Parties holding these numbers will present them to Mr. Sunderland, who is commissioned to furnish the hats.

—The latest novelty in clothing is the patent reversible overcoat. Every man can now appear to have two winters in his wardrobe, while possessing only one. By turning his ulster inside out occasionally he can keep up the illusion in the eyes of his acquaintances. These unique garments can be seen at the White House.

—Wm. Mooney's stables in Virginia City are deservedly popular with people on the Truckee meadows. He has large, clean and healthy stalls, provided with good water and good ventilation, soft bedding and everything to make a tired horse comfortable. Mr. Mooney is an attentive and careful landlord and his visitors are sure of good feed and kind treatment.

A Good Deal the Worse for Liquor.

Says the Winnemucca Silver State: "A young man who gave the name of E. M. Handy was put off a freight train at Golconda about 11 o'clock Saturday night. He appeared to be affected with delirium tremens, and moaned loudly, but pitifully. His cries aroused the citizens of that peaceful burg, who provided him with shelter and gave him some coffee. Yesterday he started out of Lay's hotel and ran up the track like a frightened deer. One of the Lay boys followed him on horseback and brought him back. S. S. Grass and George Berger brought him to town on last evening's train and put him in the jail. He says he is a painter by trade, and was on his way from Reno, where he had been at work, to Eureka. He refused to touch any kind of liquor, though he admitted he had been on a prolonged spree at Reno, which place he says he left last Friday."

Buy in the Cheapest Market.

The Virginia Foundry is now at work and ready for orders. Fourteen tons were cast last Monday, and every day or two a car load is turned out. The foundry is located right alongside the Central Pacific railroad. A side track runs under the eaves of the building, and cars can be loaded right from the moulds. The advantage Mr. Frazer has over other foundries in Virginia or San Francisco can easily be seen. Parties in Nevada ordering from here can save both time and money over any other foundry. The saving in wood alone is a very large item, and the freight on pig iron over the mountains is much less than on castings.

Preserve your eyesight by using the pure achromatic eye-glasses and spectacles. For sale at low prices at Goetzgel's Jewelry Store, Virginia street.

The Lake Case.

The trial of the Lake divorce suit drew a number of ladies to the Court room Tuesday afternoon. Mr. Varian's argument was concluded about 3 o'clock. He was followed by Mr. Boardman, also for the plaintiff, who spoke for upwards of an hour, touching upon various points of the evidence with his usual force and penetration. Court then adjourned until next morning. Next morning Gen. Clarke opened the argument for the defence. He busied himself for a time in scraping from his client the mud that had been thrown by the learned counsel for the plaintiff. The virtues of the defendant were made to shine before the jury in all their native lustre. The General reviewed minutely the evidence which had been submitted. He pointed out many instances of liberality manifested by the defendant towards plaintiff. He directed the attention of the jury to the fact that defendant had frequently spent money free on his wife, instancing the trip to San Francisco in which the plaintiff had traveled in first-class style and put up at a leading hotel. The facts, counsel urged, were inconsistent with the charges of meanness and cruelty preferred in plaintiff's complaint. Gen. Clarke spoke during the whole morning session, and had not concluded his argument when Court took a recess until 1 o'clock.

The First Rotisserie.

The French rotisserie and restaurant opened Wednesday. It is a very neat and tidy place, and is in the excellent hands of N. Guerin, an experienced caterer. The range is open where it can be seen by all comers; opposite to it stand a table covered with tempting meats of every description. The customer looks them over and selects what he prefers, and it is cooked before his eyes. A side door on the alley opens into an entryway back of the gentlemen's dining room. From this dining room in the rear of the building is reached, which is fitted up especially for families. Oysters will always be kept and can be had in any style.

A Correction.

The Carson Times recently reflected unjustly upon the treatment which the brakeman Martin, who died of small-pox, received in Reno. Last night it apologized in this way: "Mr. Martin, it appears, was removed to the hospital in the day time, when the sun was shining, and had every possible care and attention. Mr. Varian, conductor of the V. & T. through passenger train, was unremiss in his attentions to the unfortunate and lamented Martin. We are advised by parties in a position to know that he provided an extra nurse, underclothing, bedding, etc., and spared no trouble or expense to supply every possible comfort."

An Attempt to Burn Eureka.

An attempt was made to fire the town of Eureka last Monday morning. Shavings saturated with turpentine were placed under an unoccupied house and fired. Coal oil was thrown on two adjoining houses, both of which were occupied. Fortunately the flames were discovered in time, and the fire extinguished before any great harm had been done. The Leader recommends that the incendiary or incendiaries be treated to a halter if found. Should they be captured the recommendation will be very likely to receive attention.

Thistle Dow.

Manning & Berry have taken the agency for the famous Thistle Dew Whiskey, said to be the best that comes across the Rocky Mountains. It will be found at Manning & Berry's hereafter in its pure state, and can be purchased in any quantity, large or small. There is no doubt but that it is an excellent brand of whiskey, and its introduction here will be a good thing, for people will use whiskey for both good purposes and bad, and it is important to get a wholesome article.

Shot in Bodie.

A man named Robbins, who used to work for Dr. Hogan here, was shot by Tom Hawkins in Bodie last week. It appears that Robbins interfered in a quarrel between Hawkins and a third party, whereupon Hawkins shot Robbins twice. Robbins was in a dangerous condition when last heard from. Hawkins was arrested and lodged in jail.

Board of Pardons.

The Board of Pardons, in session on Monday at Carson, commuted the death sentence of Frank McIntire, of Pioche, to imprisonment for life. The applications of S. L. Nixon and John Stout were denied, and the application of James Rice was withdrawn on account of a technical defect in the notice given the District Judge and District Attorney.

SHILOH'S CATARRH REMEDY. A marvelous cure for Catarrh, Diphtheria, Canker mouth, and Head Ache. With each bottle there is an ingenious nasal injector for the more successful treatment of these complaints without extra charge. Price 50 cts. For sale by Osburn & Shoemaker, Druggists, Reno, Nevada.

More Pearls of Thought.

From the Chicago Tribune

The Tribune has long admired the plan adopted by the New York Post of publishing every now and then the briefest and best utterances of the world's master minds under the heading, "Pearls of thought," and adopts the idea in the full belief that its readers will be made better thereby. Our first necklace of pearls has been secured direct from the manufacturers at great expense, and is as follows:

Always be kind to the poor man. He may stop his dray from running over you some day.—S. J. Tilden.
Many men think too much of self interest. Ten per cent, always did well enough for me.—W. H. English.
It is better to have gone in 2:14 than never to have trotted at all.—Goldsmith Maid.
Heaven helps him who helps himself. This is wrong.—William M. Tweed.

Wives of great men oft remind us
We may make our wives sublime,
Forty dollars for a bonnet
Knocks a check book out of time.

—Longfellow.
Always buy your mules in the fall.
—Chairman Barnum.
Industry always has the pole.—C. A. Dana.

You will never miss the water till the bottle runs dry.—Henry Watterson.
Always trot the first quarter slowly.
—Mauv S.

Never try to get rich too rapidly.
You may cut a coupon so that it will not be redeemed.—W. H. Vanderbilt

Northern News Notes.

From the Modoc "Independent."

The apple crop in Honey Lake valley is said to be unusually large. Good apples well boxed are selling at one and a half and two cents per pound.

The first flour ever made in Alturas was made in Lauer's new mill to-day. The farmers can now send in their wheat and get it ground at any time.

Some of our citizens are having wells bored. By going to a depth of thirty or forty feet they get a better supply and a much better quality of water than by the old plan of digging to the level of the bed of the river.

The mail now leaves Susanville for Bieber every Monday, Wednesday and Friday, and returns on alternate days. By this change we get our mail from Reno and Susanville one day later than by the old route.

Pierre & Westlake, who have been running a threshing in Surprise valley, brought their machinery home this week, having completed their work; threshing about 34,000 bushels. The yield on the majority of the ranches was very good considering the season.

McKay & Mills have purchased a complete outfit of machinery for the manufacture of doors, window-sashes and furniture. Teams are now between here and Redding loaded with the machinery, and it will be but a few days before Alturas can boast of another branch of industry.

CINCINNATI, OHIO.

Top Buggies and Phaetons,

Best material, good workmanship, handsome styles, strong and durable vehicles in every respect.

70,000 Carriages

Manufactured by Emerson, Fisher & Co., are now in use in every part of the American Continent.

They give unfailing satisfaction. All their work is warranted. They have received testimonials from all parts of the country of purport similar to the following hundreds of which are on file subject to inspection:

Messrs. Emerson, Fisher & Co.:

I have used one of your Top Buggies three years, and three of them two years in my livery stable, and they have given me perfect satisfaction and are in constant use.

GALYA, Ill., July 16, 1879.

OSCAR SMALLEY.

Messrs. Coppock & Johnson:

Dear Sirs:—I have been using the Emerson & Fisher buggy I bought from you as roughly I suppose as any one could. I had a fast horse, drove him at full speed, sometimes with two grown ladies and myself in the buggy, and it is to-day worth all the money I paid for it. I say the Emerson & Fisher Buggies will do.

NEWBERRY, S. C., July 17, 1879.

A. M. TEAGUE, Farmer.

The favorable reputation the Carriages have made in localities where they have been used for several years by Liverymen, Physicians, Farmers and others requiring hard and constant use, has led to an increased demand from those localities, to meet which the manufacturing facilities of their mammoth establishment have been extended, enabling them now to turn out in good style,
